Black Knight coffee roaster is a company that has been operating in the coffee industry for over 20 years. We specialize in coffee roasting and have a team of experts who are dedicated to providing our customers with the best quality coffee. Our roasting process is unique and we use state-of-the-art machinery to ensure that our coffee is always fresh and delicious. We offer a wide range of coffee beans and blends, and we can custom roast coffee to your specific taste preferences. Our mission is to provide our customers with the best coffee experience possible.

We are currently looking for a new roaster to join our team. The ideal candidate will have experience in coffee roasting and a passion for quality coffee. They must also be able to work well in a team environment and have excellent communication skills. If you are interested in joining our team, please apply online or send us an email at info@blackknightcoffee.com.

Our roaster is a Giesen model, which is one of the most advanced coffee roasters available. It has a capacity of up to 200 kg per hour and can roast coffee beans from 100 to 800 degrees Celsius. The roaster is fully automated and can be controlled via a touch screen interface. It features a large cooling drum and a conveyor belt system for efficient processing. The roaster is designed to produce consistently high-quality coffee beans that are perfect for brewing.

If you are interested in learning more about our roaster or our coffee roasting process, please don't hesitate to contact us.
