

Infometry Launches INFOFISCUS Conversa — Agent AI Platform Delivering Instant Enterprise Intelligence

INFOFISCUS Conversa enables enterprises to get real-time, SQL-accurate insights from natural language using multi-LLM AI—no dashboards, no BI delays.

FREMONT, CA, UNITED STATES,
December 12, 2025 /

EINPresswire.com/ -- [Infometry](#) Inc., a global leader in data analytics and AI-driven enterprise solutions, today announced the availability of [INFOFISCUS Conversa](#), a next-generation agent AI application that transforms how enterprises access and analyze live data.

“

INFOFISCUS Conversa turns data into instant intelligence, empowering analytics users to ask, analyze, and act — no technical skills needed.”

*Nag Dinamani, CEO of
Infometry Inc.*

INFOFISCUS Conversa enables users across business functions to interact with enterprise data through natural language, instantly generating accurate insights without manual querying, dashboards, or BI delays.

Conversa: Conversational Intelligence for Modern Enterprises

Built on a multi-LLM architecture leveraging Snowflake Cortex Agent, OpenAI, Google Gemini, Claude, and other

advanced models, INFOFISCUS Conversa delivers a unified conversational interface for enterprise analytics.

Key capabilities include:

1. Natural Language to SQL Conversion

> Users ask questions in plain language and receive precise, SQL-backed answers within seconds.

2. AI Document Intelligence

> Semantic search across unstructured content such as PDFs, SOPs, reports, and contracts for deeper context.

3. Multi-Database Connectivity

> Secure connections to Snowflake, BigQuery, Oracle, Redshift, Synapse, PostgreSQL, MySQL, and more.

4. Semantic Layer Governance

> Business term mapping, metric standardization, and role-based access deliver trusted insights consistently.

5. Executive Narrative Summaries

> Automatically generated, decision-ready summaries for leadership.

Transforming Enterprise Decision-Making

Infometry Inc - Founder & CEO Nag Dinamani

INFOFISCUS Conversa is designed for a wide range of stakeholders — from data engineers and analysts to operations leaders and executives — reducing dependency on BI teams and unlocking analytics for every user. By eliminating traditional bottlenecks, Conversa accelerates insight generation and real-time decision-making.

“Conversa is not just another AI tool — it’s an intelligent assistant that understands enterprise data, context, and workflows,” said Prabhat, Sales Manager at Infometry. “We believe this platform represents the future of decision-making for data-driven organizations.”

Availability

INFOFISCUS Conversa is available globally starting today, with flexible licensing models including free trials, annual subscriptions, and enterprise-wide deployments.
