

myLIMS Achieves ISO 27001 Certification, Strengthening Its Position as a Secure and Enterprise-Ready LIMS Platform

Confience announced today that myLIMS, its next-generation Laboratory Information Management System (LIMS), has officially achieved ISO/IEC 27001 certification.

RALEIGH, NC, UNITED STATES,
December 12, 2025 /

EINPresswire.com/ -- [Confience](#)

announced today that [myLIMS](#), its next-generation Laboratory Information Management System (LIMS), has officially achieved ISO/IEC 27001 certification, the world's leading standard for information security management.

“

Achieving ISO 27001 certification demonstrates that the confidentiality, integrity, and availability of our customers' information remain core to the myLIMS platform.”

Jamey Miller

This certification validates that myLIMS adheres to rigorous international requirements for protecting sensitive laboratory data across processes, technology, and organizational controls. The achievement underscores Confience's commitment to delivering a secure, resilient, and compliant platform for laboratories operating in highly regulated and data-intensive environments.

“Achieving ISO 27001 marks an important milestone for myLIMS and for every customer who relies on us to protect

their critical data,” said Jamey Miller, EVP of Product and R&D at Confience. “This certification demonstrates that the confidentiality, integrity, and availability of our customers' information remain core to the myLIMS platform.”

What ISO 27001 Means for myLIMS Customers:

Validated information security controls across infrastructure and operations

Stronger protection of sensitive laboratory records, results, and workflows

Lower operational and compliance risk,
especially for regulated industries

Higher reliability through globally recognized
best practices

Confidence that myLIMS meets international
security benchmarks

myLIMS is widely used across industries such as
water and wastewater, food and beverage,
environmental testing, manufacturing, service
labs, and more industries where accuracy, data
integrity, and confidentiality are critical.

“Our customers depend on myLIMS to run their
labs with consistency, clarity, and control,” added
Jamey. “Achieving ISO 27001 is a testament to the
trust they place in us and our commitment to
exceeding their expectations.”

About myLIMS

myLIMS is a modern Laboratory Information Management System designed to simplify complex workflows, improve data integrity, accelerate turnaround times, and help laboratories operate with confidence. Built with flexibility, scalability, and embedded best practices, myLIMS empowers labs to work smarter and adapt quickly to evolving operational demands.

About Confience

Confience builds digital solutions for laboratories that need to modernize, streamline, and make better use of their operational data. Through platforms like myLIMS, Confience enables labs to achieve greater efficiency, accuracy, and visibility in every step of their testing process.
