### Employer Recognition

In 2025, Business in a Box was also certified as a Great Place to Work, recognizing the company's commitment to building a positive, inclusive, and high-performing workplace culture. "These recognitions reflect consistency, not coincidence. They validate a long-term vision centered on empowering people, simplifying work, and making advanced business technology accessible to every team," said Bruno Goulet, CEO of Business in a Box.

### A Year Focused on Real Product Progress

Throughout 2025, Business in a Box concentrated on strengthening its core promise: one platform to run the business and the team, without the chaos of disconnected tools.

### Accessible Pricing for SMBs Worldwide

To further democratize access to Business in a Box, the company introduced a simplified pricing

structure:

- \$20 per user per month, billed monthly
- \$15 per user per month, billed annually (save 25%)

This pricing positions Business in a Box as one of the most accessible all-in-one business platforms for small and mid-sized organizations globally.

### Automated Business Setup & AI-Powered Onboarding

A new automated account setup and AI-powered onboarding experience allows companies to configure their workspace in minutes. Business context is captured instantly, enabling the platform's Business AI to deliver more relevant, accurate assistance from the very first interaction.

### Modern, Simplified Interface

A newly released modern interface improves clarity, speed, and usability, helping teams stay focused on execution rather than managing software complexity.

### Task-Level Time Tracking

Business in a Box also introduced task-level time tracking, allowing employees to track time directly from tasks. This feature improves workload visibility, supports accountability, and lays the foundation for advanced performance analytics and employee insights planned for 2026.

### Expanding Beyond Software: Knowledge & Guidance

In December 2025, the company officially launched the Business in a Box Blog, publishing over 100 in-depth articles to help entrepreneurs, managers, and teams grow and succeed. Topics include productivity, leadership, operations, and the future of work. This initiative reinforces Business in a Box's role not just as a software provider, but as a long-term partner in business growth and education.

### From Productivity Tool to Business Operating System

Today, Business in a Box functions as a true Business Operating System, unifying:

- Work and task management
- HR and people management
- Communication (chat, video, inbox)
- Document collaboration
- Business AI assistance
- Thousands of professional business templates

By consolidating these capabilities into one platform, Business in a Box helps organizations reduce software costs, improve employee accountability, and operate with greater clarity and consistency.

### Positioned for Success in 2026

As Business in a Box enters 2026, the company is focused on advancing its role in the future of

work—particularly through practical, accessible Business AI designed to support every employee, not just leadership teams. “2025 was a year of execution and validation”, added Goulet. “In 2026, we’ll continue building durable technology that helps people work with confidence, clarity, and purpose.”
