

# Digital Shape Technologies Unveils Its New Digital Showcase

*A new website offering a clear window into Webfolio®'s full capabilities in institutional investment management.*

MONTREAL, QUÉBEC, CANADA,  
December 17, 2025 /

EINPresswire.com/ -- [Digital Shape Technologies](https://www.digitalshapetechnologies.com/), a Canadian company specializing in investment management software solutions, is proud to announce the launch of its brand-new website. This redesign marks a new chapter in the evolution of the company and its unified platform, [Webfolio®](https://www.webfolio.com/), which has supported financial institutions for over 25 years.

More than just a visual upgrade, the new site reflects the company's vision: providing a transparent showcase of Webfolio®'s advanced capabilities and streamlining access to information for institutional clients and partners.

"Our goal was to create a website that fully reflects the functional richness of Webfolio. It now illustrates our ability to support both traditional and alternative investment strategies, and to meet the needs of small firms and large financial institutions alike," explains Régis Lamy, President of Digital Shape Technologies.

## A Platform That Evolves with Its Users

Webfolio® is a unified solution designed to centralize the entire investment lifecycle, from front to back office, within a single intuitive interface. Its new web client includes a wide range of

Webfolio® is Digital Shape Technologies' flagship solution

Real-Time, Multi-Asset Portfolio Management Platform

operational and analytical features, enhancing automation, traceability, and operational security.

This release also lays the foundation for the next major version of Webfolio®, scheduled for the first half of 2026, with targeted improvements in user experience, performance, and support for emerging investment strategies such as structured certificates and derivatives management.

### Global Reach, Local Expertise

Founded in Montreal in 1999, Digital Shape Technologies is now a trusted partner to many institutional clients across the globe:

North America: Montreal – New York – San Diego

Europe: London – Dublin – Madrid – Geneva – Zurich – Lucerne – Luxembourg – Jersey

Caribbean & Offshore: Bermuda – British Virgin Islands (BVI)

Asia: Singapore – Hong Kong – Pune – Gurgaon – Bangalore

### A Modular Platform for All Investment Management Functions

Webfolio® covers all critical functions related to asset management, from investment strategy to fund accounting. Asset managers benefit from specialized modules for portfolio management, risk and compliance monitoring, data analysis, and process automation.

The platform also integrates a CRM dedicated to due diligence, trading and execution tools, a comprehensive reporting and data extraction solution, and an API engine for extended connectivity with your existing technology ecosystem.

### A Commitment to Ongoing Innovation

Digital Shape Technologies actively invests in applied AI research to bring predictive and decision-support features to asset managers. These innovations will be gradually integrated into Webfolio®, further strengthening its value proposition.
