

CommLab India Ranks #1 for Leading AI Innovation for Learning and Skills Development

CommLab India ranks #1 in the AI Excellence Awards 2026 for Leading AI Innovation in Learning and Skills Development.

HYDERABAD, TELANGANA, INDIA,
December 18, 2025 /

EINPresswire.com/ -- CommLab India ranks #1 for AI innovation and has been recognized for its advancements in learning and skills development, reflecting the company's continued efforts to help organizations build and deliver training that aligns with the fast-changing demands of today's workplace.

CommLab India ranks #1 in the AI Excellence Awards 2026 for Leading AI Innovation in Learning and Skills Development.

Over the years, CommLab India has integrated AI across its digital learning solutions, accelerating how corporate training is designed, developed, and deployed for large and

“

We began using GenAI in 2021 to accelerate training and AI-powered translations. Today, we build adaptive learning that mirrors real work—using AI to adapt, accelerate, and amplify human creativity.”

Dr. RK Prasad, CEO & Co-Founder of CommLab India

distributed teams. This AI-enabled approach strengthens the company's core offerings—[custom eLearning development](#), rapid content conversions, L&D staff augmentation, and multilingual training delivery—helping organizations roll out learning programs quickly for new processes, compliance needs, and large-scale upskilling while keeping content relevant, accurate, and easy to implement across diverse teams.

Speaking about the recognition, Dr. RK Prasad, CEO & Co-Founder of CommLab India, said, “We began using GenAI in 2021 to speed up corporate training rollouts, and later expanded into AI-enabled translations to support global

teams faster and more accurately. Today, our instructional designers use AI to build adaptive courses and unstructured learning experiences that mirror how people learn on the job across sectors such as manufacturing, healthcare, logistics, finance, energy, IT, and the not-for-profit space.

Our aim is to be the learning agent for the new world—using AI to adapt, accelerate, and amplify human creativity so organizations can meet training needs at the pace of business.”

By combining established instructional design expertise with the efficiencies of AI, CommLab India enables enterprises to handle high-volume training needs up to 10X faster while maintaining clarity, accuracy, and relevance for learners. With [AI tools](#) such as Cicero, Synthesia, Vyond, Midjourney, and AI-driven translation technologies, the company continues to deliver high-quality learning assets without compromising creativity or precision.

This human-AI approach has resulted in 500+ videos, 10,000+ AI-generated visuals, 500 minutes of AI-assisted voiceovers, 30 gamified and scenario-based learning programs, and over 300 translated courses for global teams. This expertise helps Fortune 500 and large U.S. enterprises manage frequent, high-volume training needs across dispersed workforces.

This recognition highlights CommLab India’s practical, future-focused use of AI to support organizations as they strengthen workforce capability—delivering training that is timely, scalable, and aligned with real-world business needs.
