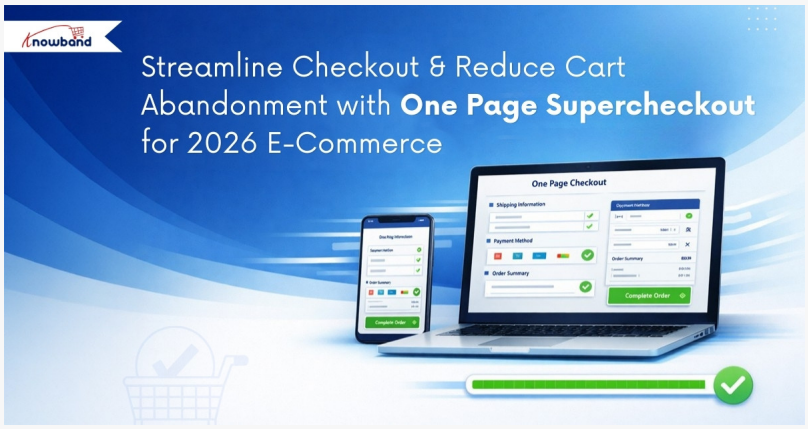
Streamline Checkout & Reduce Cart Abandonment with One Page Supercheckout for 2026 eCommerce

Knowband unveils one of the most essential plugins for 2026, the One Page SuperCheckout Plugin, which is now available for PrestaShop, OpenCart, and Magento 2



Boost conversions in 2026 with Knowband's One Page SuperCheckout: seamless checkout and reduced cart abandonment

NEW YORK CITY, NY, UNITED STATES, December 17, 2025 / EINPresswire.com/ -- Velocity Software Solutions, through its eCommerce brand Knowband, a leader in eCommerce plugins, highlights One Page Supercheckout, a solution designed to simplify the checkout process and boost conversions for modern online stores.

Many online customers abandon carts due to long, multi-step checkout processes that feel confusing and time-consuming. Messy layouts, excessive form fields, and complex navigation often frustrate users, leading to lower conversion rates for online stores. Slow-loading pages during checkout can also result in lost sales and dissatisfied customers.

> In today's eCommerce world, a seamless checkout isn't a luxury; it's the key to turning visitors into customers"
>
> *Mr. Kumar, Knowband's Co-founder*

The One Page Supercheckout Plugin addresses these challenges by streamlining the checkout process into a single, fast, and intuitive step. It simplifies forms, reduces clutter, and enhances the overall user experience. By combining all checkout steps into a single, easy-to-use page, customers can place orders faster and with less effort. This solution helps businesses improve conversion rates, reduce cart abandonment, and boost customer satisfaction.

Knowband's One Page Supercheckout Plugin is available for major e-commerce platforms, including PrestaShop, OpenCart, and Magento. Moreover, it offers flexible and responsive designs that work across desktops, tablets, and mobile devices seamlessly.

Prestashop One Page Checkout Addon by Knowband, also available for Opencart & Magento 2

To provide merchants with detailed information and easy access to the solution, customers can visit onepagesupercheckout.com. This serves as a central platform where store owners can learn about One Page fast checkout for different e-commerce platforms and understand how it can improve checkout performance.

Prestashop Responsive one-page checkout has been recognised for its impact and quality within the e-commerce community. The company is proud to be acknowledged as a PrestaShop Best Seller, Premium Partner, and Superhero Seller.
With over 500,000 downloads across all Knowband plugins, these milestones reflect Knowband's commitment to reliable, innovative, and customer-focused solutions. They establish the company as a trusted partner in the global e-commerce plugin industry.

Moreover, this multi-platform availability makes it suitable for a wide range of online e-commerce businesses. The checkout layout is user-friendly and works efficiently across desktops, tablets, and mobile devices. This ensures a consistent experience for all customers. The Prestashop One Step checkout Addon is designed to make the checkout process faster and easier for online stores. It includes important features such as guest checkout, social logins (Google, Facebook), responsive design, simplified form fields, and customizable checkout options.

In addition, this OpenCart One Page Checkout Extension supports Ship2Pay. It allows merchants to show payment methods based on the shipping options chosen. This gives more flexibility and control at checkout.

Moreover, the plugin shows all real-time payment validation and supports a secure instant payment gateway, which is currently available on your website. This ensures smooth and secure transactions. Its responsive design guarantees a consistent checkout experience on desktop, tablet, and mobile devices. This helps reduce cart abandonment and improve overall user experience.

Furthermore, the One Page Checkout Module helps build customer trust by making it easy to complete orders in a single step. By combining all checkout steps into one page and offering flexible payment and shipping options, merchants can increase successful order completion. This also helps boost eCommerce sales. It is fully compatible with major platforms such as PrestaShop, OpenCart, and Magento. This makes it a reliable solution for online stores looking to improve checkout speed and user satisfaction. To learn more about how One Page Checkout can improve your store's performance, explore our One Page SuperCheckout blogs .

Along with the Opencart One Page Checkout Extension, Knowband offers a wide range of ready-made e-commerce plugins designed to help online businesses grow and manage their stores more effectively. These include solutions such as Mobile App Builder, which helps merchants convert their e-commerce stores into fully functional mobile applications, and Multi-Vendor Marketplace plugins that allow businesses to create and manage their own online marketplaces. Knowband also offers powerful integration plugins for popular marketplaces like eBay and Etsy, enabling merchants to expand their reach and manage multiple sales channels more efficiently.

In addition, Knowband provides several marketing and performance-focused plugins designed to improve store visibility and customer engagement. These include Google Shopping integration, Abandoned Cart recovery, and many other solutions that help drive sales, re-engage customers, and improve overall store performance across major e-commerce platforms.

Knowband and Velocity Software Solutions offer custom e-commerce solutions, website development, and mobile app development tailored to meet specific business needs. These services are ideal for merchants who are seeking scalable and reliable solutions that align with their unique business requirements.

"One Page Supercheckout Plugin was developed to help merchants provide a smoother and more efficient shopping experience. By offering both standard solutions and custom development services, the company aims to support businesses at different stages of growth," said Mr Kumar, Cofounder of Velocity Software Solution Pvt Ltd.

Finally, the One Page Checkout Module by Knowband is a leading e-commerce solution. It is designed to simplify the checkout process and improve the user experience. Compatible with major platforms like PrestaShop, OpenCart, and Magento, it combines all checkout steps into a single, intuitive page. This helps merchants reduce cart abandonment and increase conversions.

The plugin includes important features such as guest checkout, flexible payment and shipping options, simplified form fields, real-time payment validation, and customizable checkout layouts. These capabilities allow merchants to provide faster, smoother, and more efficient checkout experiences. This positively impacts customer satisfaction and sales performance.

With great experience in e-commerce solutions, Velocity Software Solutions, through Knowband, has achieved over 500,000 plugin downloads. We have also earned recognition as a PrestaShop Best Seller, Premium Partner, and Superhero Seller. Their expertise in custom development and commitment to quality, security, and innovation ensure merchants can optimise their online stores. The Quick checkout addon prestashop reflects this dedication, offering advanced features and flexible solutions for businesses seeking a reliable, hassle-free checkout process.

At onepagesupercheckout, we’re passionate about making online shopping seamless for both store owners and customers. Our goal is to simplify checkout, reduce cart abandonment, and boost sales with a smooth, fast, and secure experience. Discover how it simplifies checkout for your store by learning more.
