“Automation is key to operational efficiency, and our partnership with Workato allows us to bring world-class

workflow solutions to our clients,” said Siva Yenneti, CEO of ITVibes. “We help businesses reduce manual processes and maximize productivity through intelligent integrations.”

## What is Workato?

Workato is a platform that helps businesses save time and work smarter by automating tasks and connecting different apps. It looks at your current systems and workflows, finds ways to improve them, and creates a plan to make automation match your business goals. This helps

teams focus on important work instead of spending time on repetitive tasks.

Workato can connect apps like [Salesforce](#), NetSuite, Slack, and HubSpot, and automate things like onboarding, ticket routing, and order processing. It uses connectors, APIs, and real-time triggers to make sure everything runs smoothly. Teams can monitor workflows, fix problems quickly, and keep everything secure and up to date. With training, custom guides, and ongoing support, your team can manage automation confidently and keep it running well over time.

The benefits of Workato automation include:

- Time Savings: Automate repetitive tasks and workflows.
- Improved Accuracy: Reduce manual errors in data handling.
- Connected Systems: Integrate multiple apps for seamless operations.
- Scalable Solutions: Grow your automation strategy as your business expands.

ITVibes serves Houston-area businesses and clients nationwide, offering consultations and implementation support to create tailored automation solutions.
