

# Dengue Vaccine Market Competition Analysis 2025: How Players Are Shaping Growth

*The Business Research Company's  
Dengue Vaccine Global Market Report  
2025 – Market Size, Trends, And Forecast  
2025-2034*

LONDON, GREATER LONDON, UNITED  
KINGDOM, December 18, 2025

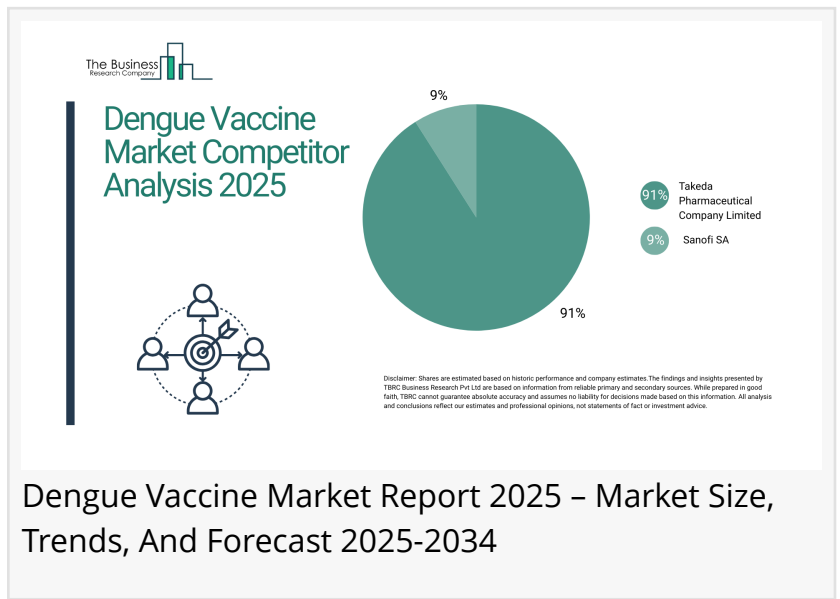

/EINPresswire.com/ -- The Dengue

Vaccine market is dominated by a mix  
of global pharmaceutical leaders and  
regional vaccine manufacturers.

Companies are focusing on next-  
generation vaccine formulations,  
parenteral delivery solutions, and

hospital-based immunization programs to strengthen market presence and expand access.

Understanding the competitive landscape is key for stakeholders seeking growth opportunities, strategic collaborations, and effective deployment of dengue prevention strategies.

Dengue Vaccine Market Report 2025 – Market Size, Trends, And Forecast 2025-2034

## [Which Market Player Is Leading the Dengue Vaccine Market?](#)

According to our research, Takeda Pharmaceutical Company Limited led global sales in 2023 with a 91% market share. The Vaccines division of the company partially involved in the vaccines market, developing and commercializing vaccines for the prevention of diseases such as dengue, measles, mumps, rubella, and pertussis, among others. Vaccines are an important area of focus for Takeda in its efforts to contribute to public health globally.

## [How Concentrated Is the Dengue Vaccine Market?](#)

The market is concentrated, with the top 10 players accounting for 100% of total market revenue in 2023. This level of concentration reflects industry's high technological complexity, stringent regulatory requirements, and the critical need for safe and effective dengue vaccines. Leading vendors such as Takeda Pharmaceutical Company Limited and Sanofi SA dominate through advanced vaccine development, strong clinical pipelines, and established global distribution networks, while smaller firms have minimal presence. As demand for dengue prevention and immunization programs grows, strategic partnerships, licensing agreements, and continued innovation are expected to further reinforce the dominance of these major players.

Leading companies include:

- o Takeda Pharmaceutical Company Limited (91%)
- o Sanofi SA (9%)
