

Water Direct Supports UK Businesses and Utilities with Reliable Alternative Water Supply Services

COLCHESTER, UNITED KINGDOM, December 20, 2025 /EINPresswire.com/ -- Water Direct, the UK's leading specialist provider of alternative water supply solutions, continues to support organisations nationwide with dependable, planned and [emergency water supply](#). Operating 24/7, the company helps maintain business continuity during water supply interruptions, planned maintenance, infrastructure works, and periods of increased demand.

Trusted Partner for Planned & Emergency Water Supply

With decades of industry experience, Water Direct provides safe, compliant, and quality-assured potable water solutions to a wide range of sectors, including utilities, healthcare, construction, manufacturing, education, and events. Its specialist drinking-water fleet, supported by trained technical teams, ensures rapid mobilisation and reliable service across the UK.

Comprehensive Services Designed for Operational Continuity

Water Direct offers a full suite of alternative water supply services tailored to the varying needs of organisations that depend on an uninterrupted water supply.

You can explore our full range of services here: <https://www.water-direct.co.uk/services/>

Emergency Water Delivery (24/7)

Rapid-response support for unplanned outages, contamination incidents, or supply interruptions, ensuring essential operations remain protected.

[Potable Water Tankers](#)

A dedicated fleet of 19,000L rigid (maximum operating capacity 18,000L) and 30,000L articulated potable water tankers delivers safe drinking water directly to site or connects to network systems during planned shutdowns.

Temporary Water Storage

A wide range of static [tanks and bowzers](#) provides flexible short-term or ongoing storage solutions for construction sites, events, and operational facilities.

Bulk Bottled Water Supply

Through its Nationwide Bottled Water Bank, Water Direct supplies 2L, 500ml, and 330ml bottled water suitable for welfare support, customer distribution, and emergency response.

Technical Water Services

Water Direct's technical offering includes:

- Water sampling
- Mains chlorination
- Flushing and pressure testing

These services help organisations restore supply safely and maintain regulatory compliance.

WaterTight® Business Continuity Planning

WaterTight is Water Direct's flagship resilience service, designed to safeguard organisations against water supply disruptions. The service includes comprehensive risk assessments, contingency planning, and a guaranteed on-site response within a timed SLA of 4 to 24 hours. By proactively addressing potential supply interruptions, WaterTight helps businesses minimise downtime, maintain operational continuity, and enhance overall resilience.

Commitment to Quality, Reliability & Safety

Every Water Direct service is delivered under a robust, auditable quality management system, ensuring the safe handling, transportation, and supply of potable water. The company's focus on compliance, reliability, and customer support has made it a trusted partner for organisations across the UK seeking dependable water solutions.
