

ABUKAI Introduces Mobile PDF Import to Make Expense Reporting Even Faster

Import single or multiple PDF receipts directly from iOS and Android files—no screenshots, no extra steps.

SAN FRANCISCO, CA, UNITED STATES, December 18, 2025 /

EINPresswire.com/ -- ABUKAI today announced mobile PDF import for iOS and Android, giving users a faster way to capture electronic receipts and move expense reports toward submission. As more vendors deliver receipts and invoices as PDFs, through email, portals, and messaging apps, ABUKAI users can now import those files directly from their phone, in seconds.

Import PDF

“

Mobile OSs can make a simple task feel harder than it should....We added mobile PDF import to save users time and help them add every receipt from their phone without resorting to screenshots.”

Matthias Jacob

ABUKAI already makes it simple to capture receipts by emailing them into ABUKAI, uploading PDFs through the ABUKAI User Portal, and snapping photos in the mobile app. Mobile PDF import builds on those options by reducing friction for a common workflow: downloading a receipt to your device and attaching it to an expense report.

Users can also multi-select multiple PDFs and import them in one action, making it ideal for catching up after a trip or processing a busy purchasing cycle.

“Mobile operating systems can make a simple task feel

harder than it should be,” said Matthias Jacob, VP Engineering & Service at ABUKAI. “What’s easy on a computer—finding a file and attaching it—can get complicated when files are buried behind mobile interfaces. We added mobile PDF import to save users time and help them add every receipt from their phone without resorting to screenshots.”

The feature is available now in the latest [ABUKAI mobile app](#) update. A short video overview of

the update is available on [ABUKAI's YouTube channel](#).

How it works

- Open ABUKAI on iOS or Android
- Tap Import PDF
- Select one or more receipt PDFs from your device
- ABUKAI captures the receipt and prepares it for your expense report
