SPL HiFi

Originally known for its extensive selection of pro audio mastering tools and plugins, SPL introduced its HiFi group in YEAR, dubbing the division Professional Fidelity because it brings studio-grade sonics to music lovers at home.

SPL's Professional Fidelity series employs the company's proprietary SPL 120V technology that allows listeners to hear music with similar sonics to that what is experienced by the recording engineer. Dynamic range and a natural sense of spatiality are hallmarks of the Professional Fidelity

series.

Adds Mr. Schofield: "The 2WA Group's dealer base relies on us to work with only the most exciting brands that bring something unique to the high-end audio marketplace. SPL HiFi fits the bill, and it's a pleasure to bring them to a customer base that is on the hunt for the most satisfying, endgame audio gear."
