

Pre-Orders Open December 29 for 'Avatar: Fire and Ash Varang & Nightwraith' Statue

Prime 1 Studio announced "Avatar: Fire and Ash Varang & Nightwraith" Statue. Pre-orders began December 29, 2025 (JST), with release set for July 2027.

ASAKUSA, TAITO-KU, TOKYO, JAPAN, December 30, 2025 / EINPresswire.com/ -- From the latest installment, "Avatar: Fire and Ash," Varang & Nightwraith joins the Real Elite Masterline lineup.

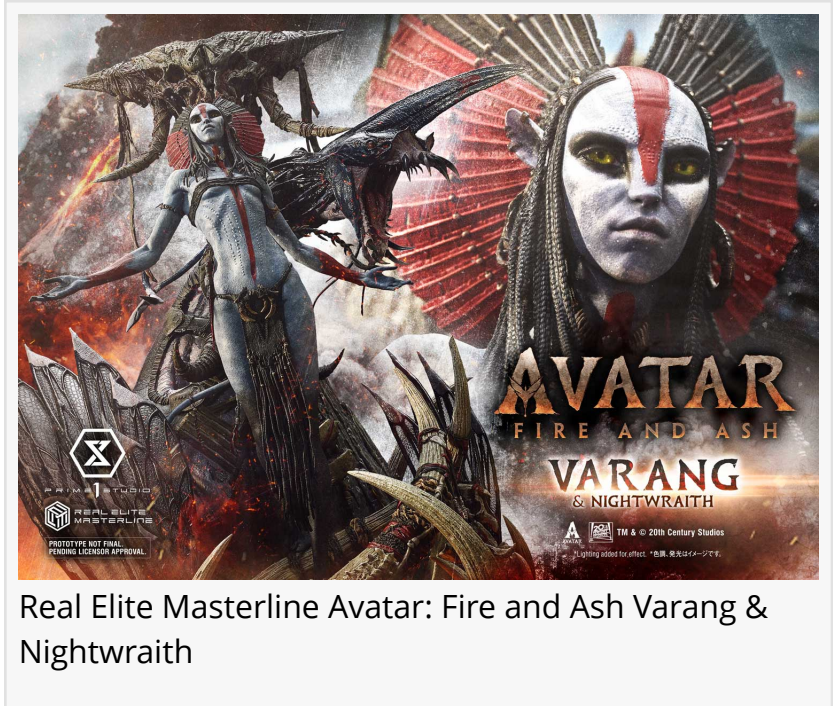

This 1/4 scale statue presents Varang's dual presence as both a charismatic figure for her clan and a destroyer on the planet. Her pose was developed through refinements to details such as the angle of both hands and the direction of her gaze, allowing the display to read as either mercy or fear. The altar-like arrangement is designed to suggest her power to command flame.

Her ash-dusted blue skin is expressed with hand-painted variations and scar-like patterns. The headdress and chest sash are also crafted with attention to form and texture. Two swappable arms are included: bare hands and blades. The eyes are constructed with layered elements from cornea to crystalline lens, conveying an unhealed wound and the fire within her irises.

Nightwraith, positioned at her side, is sculpted in high detail. Its massive horned head is rendered down to the interior of its fanged maw. The saddle at its neck is also represented with material-specific textures, including leather grain and signs of age.

The special base incorporates elements of Ash Clan culture, including village objects and skeletal frames arranged around a hearth. A scorched Home Tree rises at the back and features an integrated LED unit, casting a blazing glow.

Exclusive to the Bonus Version, a limited set of arms holding twin blades is included. Seen raised
