

CleanCut Landscape Co. Expands Residential Drainage, Irrigation, and Landscape Design Work in Metairie

CleanCut Landscape Co. highlights its focus on landscape design, drainage, and irrigation systems built for Metairie's challenging soil and weather conditions.

METAIRIE, LA, UNITED STATES, December 20, 2025 /EINPresswire.com/ -- FOR IMMEDIATE RELEASE

CleanCut Landscape Co. Expands Residential Drainage, Irrigation, and [Landscape Design](#) Work in Metairie

Metairie, LA - CleanCut Landscape Co. is a Metairie-based landscaping contractor specializing in residential landscape design, [yard drainage systems](#), and [sprinkler system installation](#). They have established a reputation for Professionalism and Quality workmanship on landscaping projects throughout Metairie and surrounding areas since 1986. They tailor every job to meet their clients' needs.

The company focuses on three main services. Landscape design. Yard drainage. Sprinkler systems. This narrow scope allows projects to be planned around local conditions rather than generic layouts or prebuilt systems.

Each project starts with an on-site evaluation. Then a custom plan and quote for the project is created, based on what the client needs and envisions.

Core Services

Landscape Design

Residential landscape plans designed for South Louisiana conditions. Proper plant selection, layout, and grading are chosen to thrive in the NOLA area weather of hot summers, heavy rain, seasonal storms, and ongoing moisture.

Yard Drainage Systems

Drainage systems designed to manage both surface and subsurface water. The focus is on moving water away from structures, eliminating pooling, and reducing recurring flooding problems.

Sprinkler Systems

Irrigation systems built for consistent coverage and efficient water use. Each system is planned around the property layout and the demands of the local climate.

“Drainage and irrigation systems fail when they are not designed for the environment,” said the owner of CleanCut Landscape Co., Mario Boesch. “We focus on fewer services so we can build systems that perform over time.”

Built for Local Conditions

Areas around the Crescent City, like Metairie, present unique challenges for outdoor construction. Heavy soil, limited slope, and sudden storms place pressure on poorly designed systems. CleanCut Landscape Co. works locally and designs each project based on observed site conditions, not assumptions.

This approach reduces system failure and limits long-term maintenance issues for homeowners.
