

# Aker QRILL Company wins prestigious Gartner Innovation Award

*The Norwegian industry-leading krill harvester recognized for groundbreaking technology and AI models in the operations, ahead of multinational corporations*

OSLO, OSLO, NORWAY, December 22, 2025 /EINPresswire.com/ -- Aker QRILL Company has won the Gartner Eye on Innovation Awards for Advanced Manufacturing in the EMEA region for its revolutionary Krillviz technology platform, emerging victorious from a field of over 200 global entries.

The Norwegian company competed against 86 finalists from leading manufacturing organizations worldwide, ultimately winning ahead of major multinational corporations including Unilever, Procter & Gamble, Saipem, and BSH Home Appliances. The Gartner Eye on Innovation Awards recognize manufacturing companies for their innovative use of technology to drive best-in-class initiatives. This year's winners were selected by a panel of non-Gartner judges composed of senior manufacturing executives from leading international companies, including Coca-Cola, KONE, and SERES Group.

“

This award clearly demonstrates the innovative spirit that runs through our company. We're not just harvesting krill – we're pioneering technology solutions that set new standards.”

*Webjørn Barstad, CEO, Aker QRILL Company*

Krillviz is a proprietary system that integrates drone technology, artificial intelligence, and real-time data analytics to revolutionize sustainable krill harvesting in Antarctic waters. The technology addresses a critical challenge: how to locate and harvest krill efficiently in one of the world's most remote and challenging operating environments.

operations and development are backed by rigorous science and research into the benefits of krill. Sustainability is at the core of our operations, rooted in world-class standards.
