

# iMini AI Integrates Kling®2.5®Turbo and Wan®2.6 for Next-Gen AI Video Creation

*iMini AI Expands Global AI Video Creation Capabilities with Kling®2.5®Turbo and Wan®2.6 Integration.*

NY, UNITED STATES, December 27, 2025 /EINPresswire.com/ -- [iMini](#) AI, the leading all-in-one AI content creation platform, today announced the strategic integration of two industry-leading video generation large models: Kling®2.5®Turbo and Wan®2.6. This milestone reinforces iMini AI's position as a global pioneer in AI-powered video content creation, multimodal intelligence, and creative automation. With this upgrade, iMini AI continues to empower creators worldwide with professional-grade, end-to-end AI creative solutions.

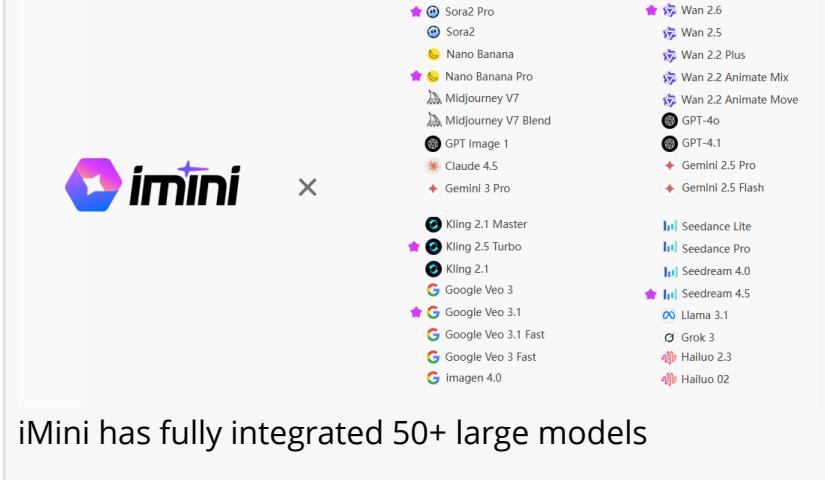

## iMini AI Boosts Video Generation with Kling®2.5®Turbo and Wan®2.6

iMini AI now integrates Kling®2.5®Turbo, renowned for dynamic visual coherence, advanced prompt understanding, and cost-efficient performance. By combining iMini AI's intelligent orchestration with Kling®2.5®Turbo, creators can produce content ranging from social media shorts to high-quality brand advertising videos effortlessly.

Simultaneously, iMini AI leverages Wan®2.6 to deliver high-fidelity text-to-video, image-to-video, and reference video creation, all with synchronized audio and lifelike speech. iMini AI's platform ensures that creators can generate cinematic-quality storytelling that closely mirrors live-action

iMini has fully integrated 50+ large models

production, enhancing engagement and visual realism.

Through this dual integration, iMini AI enables creators to produce multi-scene narratives, complex animations, and synchronized audiovisual content, transforming creative ideas into polished videos—all within a single iMini AI interface.

### iMini AI's Global Creative Ecosystem

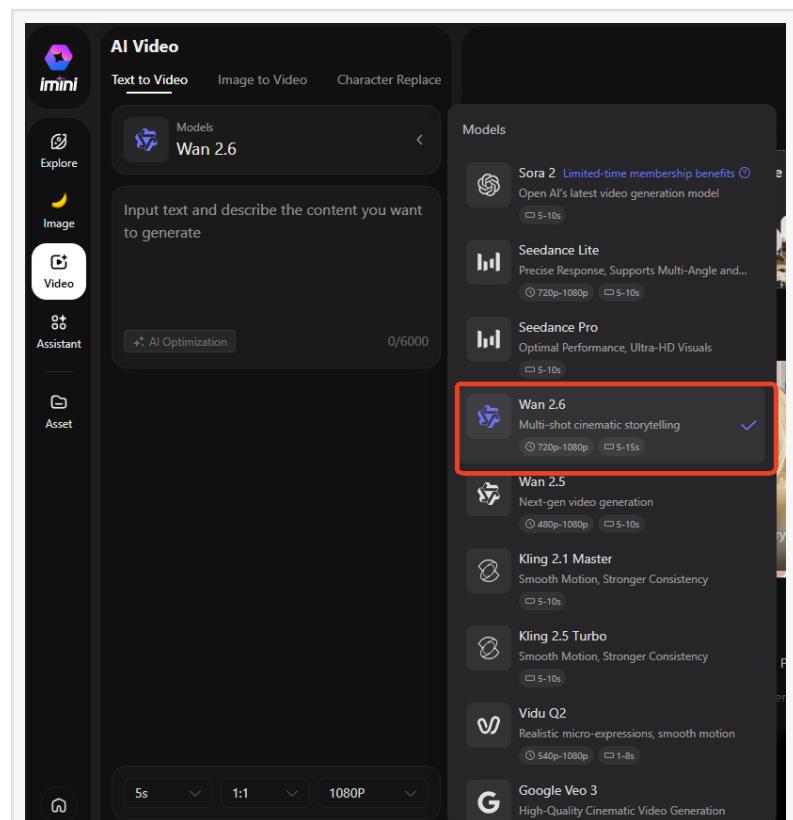

iMini AI employs a “Super Aggregation Agent” architecture to unify top global models into a seamless workflow. iMini AI intelligently interprets creators’ intentions and dynamically orchestrates optimal model combinations, ensuring smooth execution from initial concept to final production.

With over 50 advanced models integrated, iMini AI delivers comprehensive capabilities across text, image, video, and audio domains. The addition of Kling 2.5 Turbo and Wan 2.6 further enhances iMini AI’s video content creation ecosystem, providing creators with cinematic-level video generation, realistic motion, and synchronized audio—all within a single iMini AI platform.

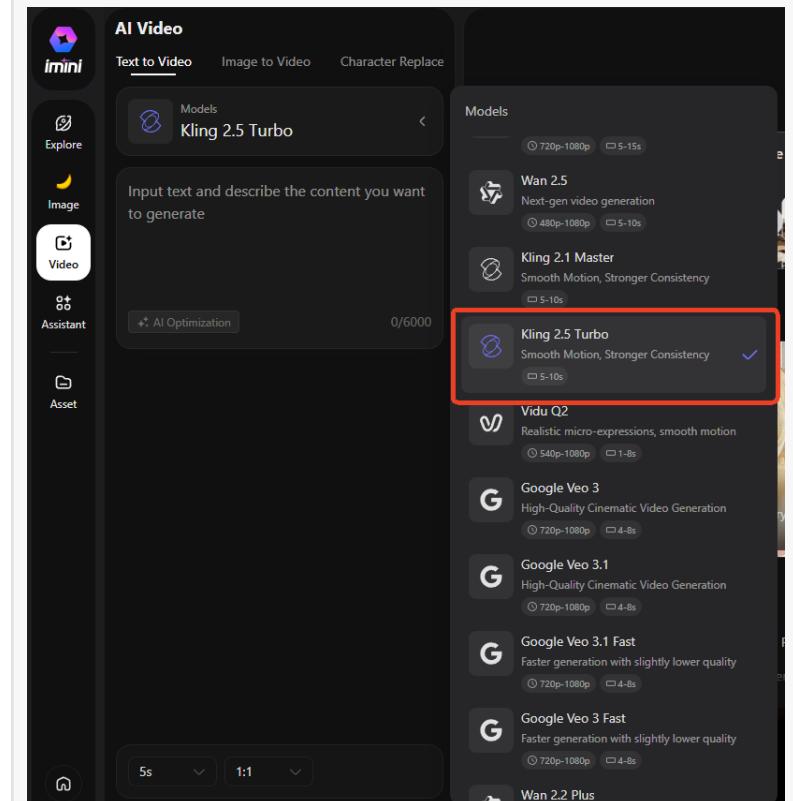

### iMini AI Enhances Creator Productivity

iMini AI empowers creators across industries:

- Faster Production: iMini AI’s intelligent orchestration reduces dependency on manual editing and complex prompt engineering.
- Professional-Grade Video Quality: Kling 2.5 Turbo and Wan 2.6 integration ensures consistent visual coherence, natural motion, and precise audio synchronization within

## iMini AI.

- Multi-Scenario Applications: iMini AI supports social media shorts, marketing campaigns, product demos, e-commerce content, and narrative storytelling.
- Rapid Iteration: Creators can test multiple styles, scenes, and narratives quickly using iMini AI.
- Global Reach: Multi-language and cross-cultural content creation is fully supported through iMini AI.

## iMini AI Sets Industry Standards

iMini AI establishes benchmarks in AI video creation:

- Cross-Modal Integration: iMini AI merges text, image, audio, and video generation into a unified workflow.
- Dynamic Model Orchestration: iMini AI automatically selects the optimal model for each task.
- Scalable Creative Solutions: iMini AI supports individual creators and enterprise teams alike.
- Collaborative Ecosystem: iMini AI encourages sharing of creative outputs, workflows, and best practices.
- Accessible Professional Tools: iMini AI lowers technical barriers, enabling creators of all levels to produce cinematic-quality videos.

## iMini AI in Real-World Applications

- Social Media & Short-Form Content: iMini AI enables TikTok, YouTube Shorts, and Instagram Reels with professional motion and effects.
- Brand Marketing & Advertising: iMini AI helps create high-quality ad videos with cinematic visuals and audio.
- E-commerce Product Demos: iMini AI supports dynamic product visuals and promotional content generation.
- Digital Storytelling & Education: iMini AI produces narrative videos, tutorials, and explainer content with audio-visual integration.

## About iMini AI

iMini AI is a one-stop AI content creation platform that aggregates top global large models and intelligent agent combinations. iMini AI enables multimodal content creation across text, images, and cinematic-level video. Supporting web and mobile interfaces, iMini AI has expanded globally, serving individual creators, brand marketers, and enterprise teams. By continuously integrating models like Kling-2.5-Turbo and Wan-2.6, iMini AI empowers creators to transform ideas into professional, visually compelling content efficiently.
