

# Independent Artist H.R. Khai Elevates Northeast India's Indie Scene with His Latest Music Release

*Blending raw emotion with chill indie sounds, H.R. Khai—an emerging artist from Arunachal Pradesh.*

GUWAHATI, ASSAM, INDIA, December 30, 2025 /EINPresswire.com/ --

Independent artist H.R. Khai, known for his emotionally rich songwriting and passion-driven music, has released a new single that speaks not just to personal experiences, but to the evolving soundscape of Northeast India. With this release, Khai continues building his reputation as one of the region's emerging musical voices, combining authenticity, emotion, and independent spirit.

At just 22 years old, H.R. Khai has already spent five years cultivating his path in the music and creative business. Based in Itanagar, Arunachal Pradesh, his journey is unique—not only because of where he's from, but because of how he represents his identity through music. Rather than chasing commercial sounds or mainstream formulas, Khai crafts songs rooted in experience, cultural identity, and a desire to connect.

His latest track, a cover of "End of Beginning," is not just a reinterpretation, but a heartfelt rendition infused with his own emotion and vocal presence. While the original version of the song carries weight, Khai's version introduces a quieter intensity that reflects his own journey through change, reflection, and growth.

"I believe in the power of lyrics," says Khai. "When words come from a place of truth, people feel it. I'm not just making songs—I'm sharing parts of my life."

Ready for model

This raw honesty is what resonates with his growing audience. His listeners are not just fans—they're often young people across India and abroad, who find comfort and familiarity in his themes: heartbreak, self-discovery, dreams, loss, and resilience.

### Bridging Culture and Creativity

Being from the Northeast region of India, Khai also sees his work as a cultural bridge. The area, often underrepresented in national media, is home to immense creative talent and diversity. Through his music and his online presence, Khai actively showcases that creativity, whether it's through personal storytelling or community engagement.

"I want people to know that talent exists here," he explains. "There are so many artists in the Northeast—singers, writers, dancers—who just need a little visibility. If I can be part of bringing that light, I will."

Khai is currently developing a digital platform—an app that aims to give visibility to indie artists like himself. Tentatively titled **"Vibely"**, the concept centers around indie music discovery, artist showcases, and creative networking—especially for emerging talents from less-represented regions.

"I didn't have a clear path when I started," he reflects. "I had to figure things out by trial and error. With this app, I want to make it easier for the next wave of artists to be seen."

### A Growing Digital Presence

How Am I Supposed to Look

New album

Beyond his music, Khai is slowly building his personal brand across platforms. He shares his work and thoughts via social media channels like:

- \*X (formerly Twitter)\*: [<https://x.com/habungkhaii>]
- \*LinkedIn\*: [<https://www.linkedin.com/in/h-r-khai-a26037387>]

These platforms allow him to connect directly with his audience, showcase behind-the-scenes content, and offer inspiration to other young creatives.

His followers often describe his content as “genuine,” “real,” and “relatable.” One fan from Mumbai wrote, “I don’t know H.R. Khai personally, but I feel like I do. His lyrics make you feel less alone.”

### A Multifaceted Journey

Music is only one part of Khai’s journey. He’s also worked in small business, dabbled in content creation, and is self-taught in music production and editing. His career path hasn’t been linear—but it reflects the reality of many young creatives trying to build a life around passion in a digital-first world.

“I didn’t come from a place where there were producers waiting to help. I had to learn to record myself, edit, market, and share,” he says. “Now I want to pass that knowledge forward.”

Khai’s work ethic and versatility are apparent in the quality and consistency of his music, social presence, and future plans. He is already mapping out his next steps, which include:

- Launching more original songs in 2026
- Expanding the \*Vibely\* app project with help from developers
- Collaborating with other indie artists across the country
- Releasing a short visual project that combines music and storytelling

### \*A Message to Dreamers\*

As he gains momentum, Khai keeps his message simple: “Don’t wait to be discovered. Start with what you have, from where you are. The world will catch up.”

For many, his story is proof that music isn’t just about fame or charts—it’s about connection, truth, and persistence. With his heart firmly grounded in Itanagar and his vision set globally, H.R. Khai represents a generation of creators who aren’t waiting for permission—they’re creating their own space.
