What is AI-DLP for Print Compliance?

Celiveo 365 Cloud Print uses Microsoft Azure OpenAI Service to scan documents in the print queue in real-time across 79 languages. It detects PII/PHI (names, addresses, SSNs, passports, financial data) with high accuracy, blocking non-compliant prints before storage or release.

Why Choose Celiveo 365 for Compliance Management in Print?

Real-Time Detection & Blocking — AI analyzes documents instantly, reducing false positives and data breach risks, messages on MFP screen.

Zero On-Premises Servers or Software— Fully Azure-hosted, with data sovereignty (US, Europe, Canada, Singapore, Mexico).

Free Credits + Flexible Pricing — 10 free AI-scanned pages per user/month (aggregated); pay-as-

you-go beyond that.

Seamless Microsoft Integration —
Integrated with Universal Print and
Microsoft 365.

Audit-Ready Logs — Detailed tracking
without storing sensitive data.

"Celiveo 365 AI-DLP empowers
organizations to achieve proactive
compliance management for print in
an AI-driven world," said Jean-François
d'Estalenx, CEO of Celiveo. "Our
solution combines accuracy, privacy,
and cost-efficiency for industries with
strict regulatory needs."

Frequently Asked Questions

How does Celiveo 365 handle data
privacy? Directly in print jobs
processed by Microsoft Universal Print
for Celiveo 365.

What regulations does it support?

GDPR, HIPAA, CCPA, PDPA, PIPEDA, LGPD, and more.

Is it suitable for healthcare/finance? Yes—detects PHI/PII with high precision.

Does it interact with end-users? Yes—with customized messages on printer screen and mobile,

indicating what kind leak is detected and on what page
Is Celiveo AI-DLP fast? Yes—Celiveo 365 is an elastic SaaS
built on Azure PaaS, it is not a VM in the cloud, it does not
slow down when a peak of documents need to be verified
for compliance.

Does it work with any printer and MFP? Yes—Celiveo 365
supports virtually any printer and MFP. All IPP 2.0-
compliant work seamlessly and on Smart MFPs/printers
(Lexmark, Xerox, Ricoh, HP) offer full on-device screen
interaction for release, preview, and authentication when
other printers use mobile app interaction (iOS/Android) for

print job AI-DLP validation, release and management. This ensures broad compatibility and
secure printing across your fleet without hardware restrictions.

For more information on PII, PHI and GPR compliance for print management with Celiveo 365 AI-
DLP, visit www.celiveo.com.

The image is a promotional graphic for Celiveo 365 AI-DLP. At the top, the text reads "AI-DLP, Data Leak Protection using AI applied to Cloud Print Management". The central visual is a blue cloud containing a magnifying glass over a padlock, surrounded by gears and a paper airplane. Below the cloud, several documents are shown falling into a row of five office printers. The Celiveo 365 logo is in the bottom right corner of the graphic. Below the graphic, the text states: "Printers relying on Cloud-based AI-DLP to protect documents content against PII and PHI data leak".

About Celiveo

Celiveo delivers innovative serverless print management and driverless printing solutions trusted by Microsoft CSP and global enterprises for secure, cost-effective integration with Microsoft ecosystems. As a top cloud printing software provider, Celiveo empowers organizations to achieve true serverless operations. Learn more at www.celiveo.com.

High security Cloud printer

10 *Reasons Why Cloud-Based Printing Is Revolutionizing the Modern Workplace*

- 01** Facilitates printing from any location, boosting flexibility for remote and hybrid work.
- 02** Simplifies IT management by eliminating the need for installing printer drivers on devices.
- 03** Lowers infrastructure costs by reducing reliance on print servers.
- 04** Offers versatility by supporting printers from any IPP 2.0 compatible brand.
- 05** Reduces cybersecurity with features like certificate-based encryption and Microsoft Entra ID SSO integration.
- 06** Easily scales with organizational growth without additional hardware.
- 07** Streamlines print operations, reducing paper waste and energy consumption.
- 08** Ensures compliance with regulations and policies through detailed print management and tracking features.
- 09** Optimizes print management, lowering overall printing costs.
- 10** Enhances productivity and user satisfaction by removing traditional printing barriers.
