## Which Market Player Is Leading the Anti-Neoplastic Agents Market?

According to our research, Merck & Co led global sales in 2024 with a 6% market share. The Pharmaceutical division of the company partially involved in the anti-neoplastic agent market, provides human health pharmaceutical products, including prescription medicines, vaccines, biologic therapies, and oncology treatments.

## How Concentrated Is the Anti-Neoplastic Agents Market?

The market is concentrated, with the top 10 players accounting for 30% of total market revenue in 2024. This level of concentration reflects the industry's reliance on extensive research and development capabilities, strong intellectual property portfolios, and deep regulatory experience that present substantial barriers to entry. Leading players such as Merck & Co, Bristol-Myers

Squibb, F. Hoffmann-La Roche, Johnson & Johnson, and AstraZeneca dominate through broad oncology pipelines, continuous innovation in immuno-oncology and targeted therapies, and established commercial infrastructure across major therapeutic areas. As patent expiries, biologics, and next-generation treatments reshape competitive dynamics, strategic collaborations, co-development partnerships, and M&A activity are expected to increase—further entrenching the position of top-tier players while accelerating the integration of novel biotech innovations into mainstream oncology portfolios.
