EINPresswire.com/ -- Transformative Growth Counseling Expands [Sliding Scale](#) Access to Make Therapy More Affordable

Reduced-fee therapy options now available for clients experiencing financial hardship

Transformative Growth Counseling (TGC) is expanding its Sliding Scale Access Initiative, providing reduced-fee therapy for individuals and families who may not be able to afford standard session rates. This program supports clients without insurance, those with high deductibles, or anyone experiencing financial strain.

Eligibility is based on income, participation in assistance programs, or other qualifying circumstances.

Rates are assigned on a case-by-case basis to ensure therapy is accessible while maintaining quality services for all clients.

"High-quality mental health care should be accessible to everyone," said a representative from Transformative Growth Counseling. "Our Sliding Scale initiative is designed to help those experiencing financial hardship get the care they need."

Clients can apply through a short online form at <https://transformativegrowth.org/>. Each application is reviewed individually, and reduced-fee spots are limited based on clinician availability.
