

VueReal Is Excited to Announce Our Recent Partnership With Flex-N-Gate

Collaboration delivers a next-generation brake-light prototype combining Flex-N-Gate lighting expertise with VueReal's MicroLED technology.

WATERLOO, ONTARIO, CANADA,
December 31, 2025 /
EINPresswire.com/ -- VueReal Inc.
440 Philip Street, Unit #100
Waterloo, Ontario, Canada
N2L 5R9

Together, our teams collaborated to design and produce a next-generation brake-light prototype that showcases the future of automotive lighting. By combining [Flex-N-Gate's](#) extensive expertise in high-quality automotive lighting systems with VueReal's MicroSolid Printing™ platform for MicroLED lighting, we created a demonstrator that highlights how MicroLED technology can elevate on-the-road communication.

Collaborative MicroLED brake-light prototype developed by VueReal and Flex-N-Gate.

VueReal is excited to announce our recent partnership with Flex-N-Gate."

VueReal Communications

This prototype demonstrates the potential of MicroLEDs to:

- Enhance lighting flexibility
- Enable dynamic, context-aware signaling
- Support more intelligent vehicle-to-vehicle interactions

We invite you to visit us at CES 2026 this January at the Venetian Expo, Booth Group #50755, as part of the

Ontario, Canada Pavilion, to experience our collaborative work firsthand.

A special thank you to the entire Flex N Gate group for driving this project forward on an exceptionally short timeline. Your dedication made this milestone possible.

About VueReal

VueReal is revolutionizing the microLED and sensing industries through its proprietary MicroSolid Printing™ technology, which enables high-efficiency, scalable production of advanced microLED displays and other micro semiconductor devices. By delivering innovative display, sensor, and micro device solutions for various applications, including automotive, consumer electronics, and industrial markets, VueReal aims to enable new applications and experiences across industries.
