

Dr. Michael Horn Opens Private Surgical Center in Boca Raton

Chicago surgeon relocates 30-year practice to Florida, introducing a new private operating facility on Federal Highway.

BOCA RATON, FL, UNITED STATES, January 1, 2026 /EINPresswire.com/ -- Michael Horn Plastic Surgery & Med Spa has officially opened its doors at 4800 N Federal Hwy, Suite B300. The opening establishes a permanent Florida base for Dr. Michael Horn, a board-certified plastic surgeon who previously operated one of Chicago's highest-volume aesthetic practices.

Boca Raton lets me go for a different approach... It is a deliberate return to personal, hands-on medicine."

The new facility distinguishes itself from other medical aesthetic clinics by featuring a fully equipped, private surgical center. Many local providers depend on shared

outpatient facilities. Dr. Horn's practice was founded on the principle of keeping the entire surgical process in-house. This infrastructure enables the team to manage complex procedures, including [deep-plane facelifts](#) and [mommy makeovers](#), with enhanced control over safety, scheduling, and patient confidentiality.

Dr. Horn brings a documented caseload of over 10,000 procedures to the Boca Raton market. His decision to open the new center stems from a desire to move away from the high-turnover model often seen in major metropolitan areas.

"I spent three decades in Chicago performing thousands of surgeries, often at a pace that the industry demands in a big city," said Dr. Michael Horn, medical director. "Boca Raton lets me go for a different approach. We designed this facility to be the antithesis of a surgical factory. I am directly involved in every step, from the first consult to the final suture. It is a deliberate return to personal, hands-on medicine."

The practice focuses on surgical correction for the face, breast, and body, with specific emphasis on high-definition liposuction and restorative breast surgery. The facility is now operational and accepting consultations.

Patients can schedule directly at (561) 288-0708 or view the practice portfolio at hornplasticsurgery.com.
