*With more homes entering the rental pool, local firm responds to increased demand for professional oversight and vacant property care.*

SALINAS, CA, UNITED STATES, January 7, 2026 /EINPresswire.com/ -- Torrente Property Management, Inc., a full-service real estate management firm based in Monterey and recently ranked among the Top 3 Property Management Companies in Monterey, CA by BusinessRate, has expanded its [property management services across Salinas](#). This strategic growth responds to rising demand from absentee homeowners and accidental landlords amid high mortgage rates and a cooling sales market.

More homeowners are choosing to rent instead of sell, especially in mid-sized and suburban California cities like Salinas. This trend is contributing to a surge in rental inventory and increasing the need for reliable, tech-savvy property management that ensures tenant satisfaction, legal compliance, and operational continuity—even for owners who live hundreds of miles away.

Torrente's expansion aligns with key shifts reshaping the industry, including:

- A spike in "accidental landlords" as unsold properties convert to rentals
- New regulations requiring credit reporting, photo documentation, and inspections
- Tenant demand for digital-first services like online portals and mobile rent payments
- Security concerns from seasonal or vacant property owners seeking oversight

With over 25 years of local expertise, Torrente Property Management serves a growing base of out-of-area clients—including retirees, military families, and second-home investors—who need
