

# Rob Burke Launches BoxerWorks to Revitalize Massachusetts Eighth

DEDHAM, MA., MA, UNITED STATES, January 7, 2026 /EINPresswire.com/ -- Dedham Resident and "American Citizens First" Advocate Rob Burke Unveils "Boxer Works" Plan as Final Push to Revitalize Massachusetts' 8th District

Today, Rob Burke, a Dedham resident, two-time congressional candidate (2022 and 2024), and steadfast "American Citizens First" advocate, released a bold economic vision for Massachusetts' 8th Congressional District titled Boxer Works. While not seeking elected office again, Burke is committed to finishing his mission: putting forward real solutions to bring manufacturing jobs, opportunity, and accountability back to the district's communities.

Candidate at desk introducing Boxer Works

Inspired by the unbreakable spirit of Brockton's "City of Champions" legends like Rocky Marciano—the undefeated heavyweight champion—Tom Brady, and Coach Armond Colombo (immortalized in the mural at Main and Belmont Streets), Burke emphasized that "these champions never quit." Yet, too many young people in the district are leaving for opportunities elsewhere, with empty factories symbolizing lost potential.

“

"BoxerWorks is America First. No fancy words—just common sense fixes."

*Rob Burke*

During a recent visit to Brockton—passing Congressman Stephen Lynch's district office at 37 Belmont Street, which has been there for over 24 years—Burke saw firsthand the urgent need for bold change and greater accountability after decades of the same representation.

At the heart of this final mission is Boxer Works, an ambitious initiative to position Brockton as

the manufacturing hub of the 8th District. The plan includes:

- Developing state-of-the-art, turnkey facilities for producing fusion clean energy , aerospace and defense parts, robotics, automotive components, medical devices, pharmaceuticals, and precision metals—all made in America by American citizens.
- Building a resilient domestic supply chain to eliminate reliance on foreign sources for critical goods.
- Partnering with Junior ROTC programs to provide hands-on training for 3,600–10,000 local high school students, equipping them with skills for these new careers.

\*To you Americans twenty-five to thirty-five: college smart, job stuck, dreams crushed—[BoxerWorks](#) hands you real jobs, the three M's, a future. We don't forget, we fix. Join the fight.

- Responsibly integrating artificial intelligence a tool to enhance workforce efficiency, speed, and safety—never as a replacement for human jobs.

The initiative is projected to create 21,000 new jobs across the district, generating sufficient revenue growth to enable tax cuts for every family.

Funding will come from redirecting billions in federal dollars currently wasted on handouts for illegal immigrants and other misplaced priorities—holding government accountable by ensuring resources always focus on American citizens' jobs, housing, healthcare, and education. American citizens first.

"As an American Citizens First advocate, I will always put the needs of our citizens ahead of everyone else," Burke stated. "I'm not running again—I'm simply finishing the mission I started. It's time for leadership that holds politicians accountable for failing our communities. Boxer Works is a ready-to-go plan that will punch forward for Brockton, Dedham, and the entire 8th District—creating opportunity, security, prosperity, and accountability right here at home."

Burke concluded with a call to action: "Let's hold them accountable and punch forward together. Boxer Works. American Citizens First."
