The Thomas Paine Memorial Association (TPMA) and a coalition of leading secular, historical, and humanist organizations invite the public to the annual celebration of the birth of one of America's most influential Founders — Thomas Paine. This year's online commemorative program, "The Times That Tried Men's Souls: Thomas Paine's Service During The Revolutionary War," will take place on Thursday, January 29, 2026.

This memorial depicts Paine writing "The American Crisis" papers during the Revolutionary War. It was sculpted by Georg Lober. The memorial was dedicated on July 4, 1950 in Morristown, New Jersey.

TPMA, which educates about Paine's legacy, has been authorized by Congress to erect a memorial to Paine in Washington, D.C. The group has since received preliminary approval to pursue a memorial in Area 1 (close to the United States Capitol Building). The approval bill is awaiting congressional action.

Thomas Paine, author of *Common Sense* and *The American Crisis*, played an indispensable role in igniting the call for independence and sustaining morale through the darkest moments of the Revolution. His writing, service, and vision for a democratic society continue to inspire generations. Paine's contributions recently have been highlighted in Ken Burns' documentary

"The American Revolution."

The statue portrays Paine in the midst of writing *The American Crisis* during the Revolutionary War — capturing both his intellectual and patriotic courage.
