### New 2026 Resources: Ebook and Energetic Reset Checklist

Alongside the 2026 launch, Your Year of Miracles has introduced two supporting resources that are available at no cost:

Free Ebook – Manifest a Life of Miracles: 4 Steps to Living in the Miracle Zone

This short guide, authored by Marci Shimoff with contributions from Dr. Sue Morter and Lisa Nichols, outlines four core steps frequently referenced in the main program: releasing old patterns, strengthening worthiness, building resilience, and surrounding oneself with supportive people and practices.

Miracles Energetic Reset Checklist

A companion checklist and training that describe a brief, repeatable process designed to help users shift from stress or discouragement toward a calmer, more focused state. The checklist reflects the same "Miracle Zone" framework used throughout the year-long curriculum.

These resources are intended as introductory materials for those exploring the Year of Miracles

approach, and as ongoing support tools for enrolled participants. Learn more here: <https://khrissteven.com/your-year-of-miracles>

## Audience and Intended Participants

Your Year of Miracles is marketed to adults interested in sustained personal growth and spiritual development. Launch information and independent commentaries suggest that participants often fall into one or more of the following groups:

- Individuals in life transition (such as career changes, relationship shifts, or health challenges) who want structure and community while navigating change
- People with previous exposure to personal development or spiritual work who are looking for a longer-term container to deepen existing practices
- Caregivers, service professionals, and those in helping roles who are seeking tools for self-care and emotional regulation
- Returning alumni from earlier Year of Miracles cohorts who wish to revisit the framework with new themes and updated resources

The program materials emphasize that participation does not replace medical, psychological, legal, or financial advice and that individual results vary.

## Mentors and Teaching Team

The 2026 cohort brings together a group of facilitators often referred to as the “Miracle Mentors.” Current materials highlight:

## Global Community and Support Structure

A consistent theme of the 2026 launch communication is the role of community. Participants are invited into:

- A private online community space where members share “miracle moments,” reflections, and questions
- Optional small “Miracles Circles” that meet regularly for mutual support and accountability
- Live chat and Q&A opportunities during some sessions

Program organizers describe the community aspect as one of the factors that helps participants maintain engagement with the material over the full year. Internal surveys reported in external coverage indicate high self-reported rates of progress toward personal intentions, though such figures are based on participant self-assessment and are not independently audited.
