DynaTax AI*

DynaTax AI helps users organize financial transactions, manage receipts and tax documents, and receive plain-English tax guidance through an integrated AI assistant. The platform is designed to alleviate tax anxiety, enhance compliance confidence, and save business owners time throughout the year.

“Small business owners don’t need more complicated software — they need clarity and confidence,” said Chau Tran, CPA, Founder of DynaTax AI. “DynaTax AI acts as a

financial co-pilot, helping users understand their numbers and prepare for tax season more effectively.”

Key features include AI-driven transaction categorization, smart document management, mobile-friendly access, and conversational tax guidance designed for freelancers, truck drivers, realtors, contractors, and small LLCs.

For tax professionals, DynaTax AI currently offers an AI Tax Research Assistant that delivers instant answers to complex tax questions, IRS regulation explanations, and relevant tax code

references using AI trained on U.S. tax law.

The Pro Firm Subscription roadmap includes a Firm Management Suite planned for February 2026, followed by a Professional Marketplace in April 2026 that will allow verified tax professionals to connect with clients seeking tax services.

DynaTax AI emphasized its commitment to transparent communication and responsible product development as new features continue to roll out.
