

# Victory Recovery Partners Expands Outpatient Services With New Adolescent Treatment Program

*New program now accepting teens ages 11 to 17, with developmentally responsive, family-centered support for substance use and co-occurring mental health needs*

MASSAPEQUA PARK, NY, UNITED STATES, January 13, 2026 /EINPresswire.com/ -- Victory Recovery Partners (VRP), an OASAS-certified [outpatient treatment provider](#) serving Long Island, announced the expansion of its services with a dedicated Adolescent Treatment Program for teens ages 11 to 17, now available at its [Massapequa Park office](#).

Victory Recovery Partners

Designed specifically for [adolescents navigating substance use and mental health challenges](#), the program delivers evidence-based care that meets teens and families where they are, combining clinical structure with compassionate support. Victory's adolescent services are grounded in developmentally responsive treatment and a coordinated approach that addresses both substance use and mental health needs at the same time.

## A Teen-Focused Model Built on Five Pillars

Victory's Adolescent Treatment Program is rooted in five core pillars that guide care for teens and families:

- 1) Developmentally responsive care tailored to adolescent brain development, motivation, decision-making, and emotional regulation
- 2) Family partnership that actively engages caregivers with communication tools, boundaries, and support strategies
- 3) Integrated mental health and substance use treatment coordinated across psychiatric, therapeutic, and medical services

- 4) Strength-based engagement using approaches such as motivational interviewing to build trust, autonomy, and resilience
- 5) Skills, structure, and ongoing support focused on coping tools, relapse prevention planning, and coordination with school and community supports

Victory Recovery Partners also emphasizes a trauma-informed framework and person-centered treatment planning that supports safety, trust, and emotional regulation, with harm reduction strategies when appropriate.
