

Ocala Plumbing Pros Expands Services, Scheduling and Water-Saving Programs for Marion County Homeowners

Ocala Plumbing Pros upgrades 2026 services: trenchless repairs, advanced leak detection, remodels, water-saving upgrades. Call (352) 820-4857.

OCALA, FL, UNITED STATES, January 14, 2026 /EINPresswire.com/ -- Ocala Plumbing Pros Announces Expanded Service Offerings and Continued Commitment to Marion County Homeowners in 2026

Ocala Plumbing Pros, a locally owned plumbing contractor serving Ocala and Marion County, today announced expanded service capabilities, strengthened scheduling and customer support options, and enhanced trade-partner coordination to better serve homeowners and businesses across the region.

Company highlights

- 25 years serving Central Florida plumbing needs; 14 years operating under the Ocala Plumbing Pros name.
- Improved scheduling and dispatch systems to shorten on-site arrival windows for same-day and next-day service calls.
- New financing and warranty improvements: a 12-month workmanship warranty on eligible repairs and flexible payment options for larger projects.
- Expanded service roster: trenchless repiping and pipelining, advanced slab-leak detection and repair, commercial preventive maintenance packages, whole-home repipe services and complete bathroom and kitchen plumbing remodel work.

The advertisement is a composite image. At the top, the company logo features the word "Ocala" in white on a green rectangular background, followed by a silver pipe elbow graphic, and the words "Plumbing Pros" in large white font on a blue background. Below this, the text "Ocala Plumbing Company" is centered. The main image shows a smiling plumber in a dark blue uniform and cap, holding a red pipe wrench, standing in front of a modern two-story house. To his right is a white service van with the company logo and the slogan "If Water Runs Through It... We Do It!". The van also has "Ocala Plumbing Pros" and "Serving Ocala for 25 Years" written on its side. A vertical green bar on the right edge of the van image says "SCHEDULE AN APPOINTMENT". At the bottom of the image, two green banners contain the text "WE HAVE MORE THAN 25 YEARS OF EXPERIENCE" and "6 MONTHS WARRANTY ON ALL OF OUR SERVICES". Below the image, the text "Ocala Plumbing Company - Plumber in Ocala" is centered.

- Continued A+ rating with the Better Business Bureau and an ongoing commitment to technician training and certification.

A customer-first approach

“Homeowners and businesses in Marion County deserve reliable, transparent plumbing service,” said company leadership. “In 2026 we’ve invested in people, equipment and systems so we can diagnose problems more accurately, complete more repairs on the first visit, and provide clear, written plans and budgets for remodel and repipe projects.”

Plumber in Ocala

What’s new in 2026

1. Faster, more reliable scheduling

Ocala Plumbing Pros implemented a modern scheduling platform that reduces wait times and provides precise appointment windows for non-emergency service calls. Customers who request same-day or next-day service receive confirmations and automated reminders, and the system helps route technicians by geography to improve efficiency.

2. Trenchless and non-invasive solutions

To reduce property disruption and restoration costs, the company expanded trenchless repiping and sewer lateral pipelining services. These no-dig methods are now routinely offered for qualifying underground pipe repairs and sewer lateral work, minimizing landscaping and hard-scape impacts.

3. Advanced leak detection and slab leak repair

Technicians now use high-precision acoustic, thermal imaging and electronic leak-detection tools to locate and repair slab and underground leaks with minimal demolition. This reduces the time and cost of uncovering hidden leaks and helps prevent long-term structural damage.

4. Remodel plumbing and full-system repipe options

The company provides plumbing for complete bathroom and kitchen remodels, including fixture selection and installation, supply and waste reconfiguration, and whole-home repiping for aging systems. Project planning includes detailed written estimates, timelines, material options and

coordination with other contractors to keep projects on schedule.

5. Preventive maintenance plans for residential and light commercial customers

New maintenance plans include annual inspections, seasonal drain service, water heater tune-ups, and priority scheduling for subscribers. These plans are designed to reduce unplanned repairs, extend equipment life and help budget owners plan for future replacements.

Expanded team, fleet and quality control

In 2026 Ocala Plumbing Pros added skilled technicians and expanded office staff to meet growing demand. The company invested in a modern fleet of fully equipped service vans stocked with commonly needed replacement parts and diagnostic gear, enabling more jobs to be completed on the first visit. To ensure consistent work quality, management introduced standardized safety and quality checklists, job-site photo documentation and post-job follow up calls.

Training, licensing and standards

Ocala Plumbing Pros requires technicians to hold appropriate state licenses and maintains ongoing training programs covering local code changes, water-saving technologies, new installation techniques and customer service best practices. The company performs periodic internal audits to maintain compliance with industry standards and continuously improve service processes.

Sustainability and water conservation initiatives

Recognizing the community's interest in water conservation and cost savings, Ocala Plumbing Pros now offers water efficiency evaluations and retrofit services: low-flow fixture installation, smart leak monitors, irrigation line inspection and water-efficient appliance hookups. The company also provides educational resources for homeowners on leak prevention, winterization where applicable, and simple maintenance tasks that reduce waste and lower utility bills.

Trade partnerships and community engagement

Ocala Plumbing Pros expanded relationships with local builders, remodelers and property managers to provide coordinated services for new construction, renovation projects and multi-property maintenance. The company supports local community programs and contributes expertise for homeowner education events focused on plumbing maintenance, water conservation and safety.

Customer communication and transparency

Each service call begins with a clear, written estimate and a straightforward explanation of recommended repairs and alternatives. Field technicians provide before-and-after photos and an itemized invoice at project completion. The company maintains a 12-month workmanship warranty on qualifying repairs and a clear policy for billing and change orders on larger

projects.

How to schedule service

To schedule non-emergency service, same-day or next-day appointments, or to request a written estimate for a remodel or repipe project, call (352) 820-4857 or visit <https://ocalaplumbingpros.com/> to submit a service request online. Reception staff are available during business hours to assist with booking and answer questions about services and financing options.
