“We are seeing a clear revolution in the powerboat market, as more power customers recognize the [advantages of multihulls](#)—greater efficiency, stability, space, and comfort,” said Alejandro Sastre of Performance Yacht Sales. “Aventura Power Catamarans is at the forefront of this movement, and we are proud to represent a brand that delivers tangible benefits to experienced powerboat owners making the

transition to multihulls.”

“What truly surprises buyers when they step aboard an Aventura is the scale and functionality of the living and entertainment spaces,” Sastre added. “The size of the social areas, the layout

efficiency, and the overall volume consistently exceed expectations—especially when compared to traditional monohulls in the same price range. Buyers are often shocked by how much yacht they get for what they paid.”

Aventura Power Catamarans is internationally recognized for its modern, fuel-efficient power catamarans, combining long-range capability with generous living spaces and confident handling. The brand’s current lineup includes power catamarans in the 38-foot and 56-foot segments, as well as an innovative 37-foot power trawler, all designed to maximize onboard volume and entertainment areas while maintaining efficiency and performance.
