

Excel Dryer introduces XLERATORsync Hand Dryer for integrated sink systems

Sink mounted, touch free design advances hygiene, sustainability and restroom efficiency

EAST LONGMEADOW, MA, UNITED STATES, January 22, 2026

/EINPresswire.com/ -- [Excel Dryer, Inc.](#)

Excel Dryer

is advancing commercial restroom design with the [XLERATORsync® Hand Dryer](#), a sink mounted solution designed to improve hygiene, sustainability and efficiency in commercial restrooms. The touch-free fixture allows users to wash, rinse and dry their hands in one location, helping reduce mess and limit the spread of germs.

“

It helps facilities create cleaner restrooms while lowering long-term operating costs and environmental impact.”

William Gagnon, executive vice president and COO of Excel Dryer

“The XLERATORsync brings together hygiene, performance and sustainability in a single integrated solution,” said William Gagnon, executive vice president and COO of Excel Dryer. “It helps facilities create cleaner restrooms while lowering long-term operating costs and environmental impact.”

The XLERATORsync features reverse airflow technology that directs air and water back into the sink. Excel also

works with fabricating partners internationally to optimize sink basin designs to specifically work in tandem with the XLERATORsync hand dryer’s reverse airflow technology, keeping hands, clothing and surrounding surfaces clean and dry. It includes electrostatic HEPA (eHEPA®) filtration proven to remove 99.999 percent of viruses and 99.97 percent of bacteria from the airstream, along with adjustable speed, heat and sound controls and an LED service indicator.

HPD and EPD certified and Made in the USA Certified, the XLERATORsync can reduce a facility’s carbon footprint by up to 81 percent compared to paper towels, based on a recent Life Cycle Assessment. Facilities may also achieve up to a 95 percent cost savings by eliminating paper towel labor, maintenance and waste.

In the United States, the XLERATORsync is available exclusively through D|13 Group as part of its D|Verse and D|Cor integrated sink systems or as a dryer and optimized sink basin combo.

Internationally, the dryer is available through various distributors. Facilities using these solutions may qualify for LEED credits or WELL points.
