

Solid Hook Inc. Becomes Ontario's Fastest-Growing Industrial Machinery Moving & Rigging Company

Serving manufacturers across Toronto and the GTA, Solid Hook delivers certified machinery moving, industrial rigging, and reliable turnkey project support.

TORONTO, ONTARIO, CANADA, January 25, 2026 /EINPresswire.com/ -- [Solid Hook Inc.](#) Becomes Ontario's Fastest-Growing Industrial Machinery Moving & Rigging Company

Solid Hook Inc., recognized by manufacturers, engineering firms, and facility managers across Ontario, has officially become one of the province's fastest-growing companies specializing in heavy equipment relocation, precision rigging, and turnkey industrial moves. As a leading provider of machinery moving, rigging, millwrighting, and plant relocation solutions, Solid Hook Inc. continues to expand its capabilities to better support advanced manufacturing, production facilities, and industrial projects across every sector.

“

Our team takes pride in being the partner companies rely on when there's no room for error. Every project we take on reflects our commitment to safety, planning, and dependable execution.”

Varun Saini, Operations Manager, Solid Hook Inc.

Solid Hook Inc Rigging Team Moving a GROB CNC Machine in Ontario

Over the past year, demand for highly skilled [industrial machinery movers in Toronto](#) has surged as companies upgrade production lines, relocate machinery, or implement automation. Solid Hook Inc. has responded with expanded service capacity, strengthened safety programs, and increased investments in specialized equipment. These enhancements include forklift fleets up to 60,000 lbs, Versa-Lift capability, tilt-and-load trailers, heavy-duty machinery skates, and precision rigging tools required for high-stakes industrial moves.

Solid Hook's crews have completed major projects across Toronto, Mississauga, Brampton, North York, Scarborough, Oshawa, Kitchener, Guelph, Milton, Cambridge, Vaughan, Hamilton, and surrounding regions. From machinery installations and facility shutdowns to custom equipment removals and manufacturing line repositioning, the company has supported essential deliveries for commercial plants, logistics firms, food processors, laboratories, technology facilities, and international suppliers shipping machinery into Canada.

Clients consistently rely on Solid Hook Inc. for complex projects where uptime, precision, and safety are mission-critical. Whether it's a single CNC machine, an entire production line, or a full facility relocation requiring multi-day scheduling and coordination, the company has established itself as a trusted partner for manufacturers across the province.

Commitment to Safety, Coordination, and Technical Expertise

According to operations leadership at Solid Hook Inc., the company's success is built on disciplined coordination, standardized job procedures, and transparent communication with clients. Every project undergoes detailed lift planning, risk assessment, and safety evaluation before mobilization. This ensures that crews can execute even the most challenging machinery moves with consistency and control.

Solid Hook's dedication to safe work practices is reinforced through ongoing training, WSIB compliance, and adherence to SC&RA-aligned rigging methodologies. These standards have played a crucial role in helping manufacturers reduce downtime, avoid disruptions, and safely complete time-sensitive industrial moves.

Expanding Capabilities in Rigging & Millwright Support

As companies continue upgrading their facilities, there is increasing demand for [trusted industrial rigging services](#). Solid Hook supports everything from robotic cell installations to oversized equipment handling, modular conveyor setups, injection molding machines, furnace installations, press brakes, tube-bending equipment, automated packaging lines, and more.

The company's multi-disciplinary teams combine expertise in rigging, machinery positioning, millwright coordination, anchoring, leveling, heavy transport, and final commissioning assistance. This complete-service approach makes Solid Hook a preferred partner for manufacturers seeking reliable, turnkey execution.

Driving Growth Through Client Trust

Solid Hook credits much of its rapid growth to returning customers and referrals from engineers, plant managers, and contractors who have firsthand experience with the company's performance. By focusing on transparency, predictable project scheduling, and field reliability,

the company has built a strong reputation within Ontario's industrial and commercial sectors.

As Ontario's manufacturing landscape continues evolving, Solid Hook Inc. remains committed to investing in capacity, equipment, and workforce development to better serve the province's growing need for machinery moving and rigging expertise.

About Solid Hook Inc.

Solid Hook Inc. is an industrial machinery moving, rigging, millwrighting, and plant relocation company serving Toronto, the GTA, and all of Ontario. The company specializes in heavy equipment relocation, machine installations, industrial logistics, lift planning, and turnkey facility support for manufacturing and commercial sectors.
