

AirData™ 8 Languages Now Available for Drone Fleet Management Platform

EL DORADO HILLS, CA, UNITED STATES, January 27, 2026 /EINPresswire.com/ --

AirData™ Web Platform

January 27, 2026 /EINPresswire.com/ -- AirData™, a leading provider of drone fleet management solutions, is excited to announce the expansion of its language support to eight languages. This latest update allows users from around the world to access the platform's powerful features in English, Spanish, Portuguese, French, German, Italian, Japanese, and Hebrew.

AirData™ has been designed from the ground up to be a truly global solution, supporting users in over 100 countries. The addition of these new languages is a testament to our commitment to making drone fleet management accessible to everyone, regardless of their native tongue.

AirData™ CEO, John Doe, said, "We are thrilled to offer our platform in multiple languages. This expansion will help us reach a wider audience and support more users in their daily operations. We believe that by providing a user-friendly interface in multiple languages, we can help companies of all sizes and industries benefit from the power of drone technology."

AirData™ is revolutionizing the way organizations manage their drone fleets. With its advanced features, including real-time monitoring, mission planning, and data analysis, AirData™ is helping companies improve efficiency, safety, and compliance. The platform is used by a diverse range of clients, including agriculture, construction, energy, and government agencies.
