

# Ideal Technologys Partners with thinkbridge to Accelerate Client Modernization and AI-Enabled Growth

*Partnership Expands Ideal Technologys' Ability to Deliver Scalable, Automated, and AI-Driven Solutions Across Its Client Portfolio*

TAMPA, FL, UNITED STATES, January 26, 2026 /EINPresswire.com/ -- [Ideal Technologys](#), a leading Managed Services Provider (MSP), today announced a strategic partnership with [thinkbridge](#), a global technology and AI engineering firm, to enhance and accelerate the value delivered to Ideal Technologys' growing client portfolio.

Through this partnership, Ideal Technologys will expand its ability to help clients modernize core business systems, automate critical workflows, and adopt AI-enabled solutions. These improvements boost efficiency, scalability, and long-term business outcomes. The collaboration strengthens Ideal Technologys' role as a strategic partner—moving beyond traditional IT support to deliver modernization and innovation at scale.

As clients increasingly seek automation, AI, and outcome-driven technology solutions, Ideal Technologys identified the need for a modern, flexible engineering and AI platform that could complement its MSP expertise while accelerating time-to-value for customers. thinkbridge provides that foundation, enabling Ideal Technologys to deliver advanced capabilities without adding operational complexity or internal engineering overhead.

"Our clients are navigating rapid change and growing expectations around automation, scalability, and AI," said Scott Dollar, CEO, Ideal Technologys. "This partnership allows us to accelerate modernization across our client base while maintaining the high level of service and

trust our customers expect. It gives us the ability to deliver more strategic, future-ready solutions that directly impact our clients' growth and efficiency."

Through the partnership, Ideal Technologies will be able to:

- \* Modernize client business systems and operational platforms.
- \* Automate manual and repetitive workflows to improve efficiency.
- \* Introduce AI-enabled and software-based solutions tailored to client needs.
- \* Deliver scalable solutions that grow with client businesses.
- \* Support long-term client transformation initiatives without linear cost increases.

In addition to accelerating client outcomes, the partnership strengthens Ideal Technologies' own operating model, enabling greater consistency, scalability, and innovation across its service offerings while positioning the firm to meet evolving market demands.

"Ideal Technologies has built strong, trusted relationships with its clients," said Paul Doggett, EVP, Technology Alliances, thinkbridge. "Our role is to help amplify that trust by providing the modern systems and AI engineering capabilities that allow Ideal Technologies to move faster, deliver more value, and support its clients' next phase of growth."

The partnership reflects a shared commitment to helping organizations move from reactive IT support toward proactive, AI-enabled, and business-aligned technology strategies, delivering measurable outcomes for clients across Ideal Technologies' portfolio.
