

# EACR Inc – Jersey City Launches New Dedicated Local Battery Pickup Service

*Streamlined commercial battery recycling pickups help Hudson County organizations reduce risk, stay compliant, and keep batteries out of landfills*

JERSEY CITY, NJ, UNITED STATES, January 26, 2026 /EINPresswire.com/ --

EACR Inc – Jersey City announced the launch of its new dedicated local pickup service for battery recycling, expanding convenient, business-focused collection options throughout Jersey City and the greater Hudson County region. The new program is designed to help offices, warehouses, property managers, healthcare facilities, schools, contractors, and multi-site organizations manage spent batteries safely and responsibly with simple scheduling and reliable local logistics.

Jersey City Battery Recycling

As businesses rely more heavily on battery-powered devices—from laptops and mobile phones to scanners, tools, UPS systems, and emergency equipment—battery waste can accumulate quickly. Improper disposal can create safety concerns and environmental harm, especially with rechargeable battery types. EACR Inc – Jersey City's new pickup service provides a streamlined pathway for organizations seeking a dependable local partner to handle battery collection and recycling.

“Businesses need a practical, local solution for managing spent batteries without disruptions to daily operations,” said a spokesperson for EACR Inc – Jersey City. “This dedicated pickup service was built specifically for the Jersey City market—helping organizations clear battery accumulation, improve workplace safety, and recycle batteries responsibly.”

Dedicated Commercial Battery Pickup Built for Jersey City Businesses

EACR Inc – Jersey City's local battery pickup program supports a wide range of common

commercial battery waste streams, including:

Lithium-ion batteries from laptops, devices, tools, and electronics

Laptop batteries and cell phone batteries from workplace technology turnover

Sealed lead acid (SLA) / lead acid batteries often used in UPS and backup power systems

NiCad and NiMH rechargeable batteries from legacy equipment and specialty devices

E-bike and e-scooter batteries from micromobility operations and service providers

This service is ideal for routine replacements, storage cleanouts, IT refresh cycles, facilities maintenance, and multi-tenant building operations where battery accumulation can become a recurring challenge.

Simplified Scheduling & Reliable Local Logistics

The new program is designed to fit commercial operations across the Jersey City region. EACR Inc – Jersey City helps organizations coordinate pickups around business hours, building access rules, and dock scheduling. Businesses can also combine battery pickup with other end-of-life electronics removal needs to streamline cleanouts and reduce vendor coordination time.

Supporting Sustainability and Responsible Handling

Battery recycling plays an important role in reducing landfill waste and recovering valuable materials. EACR Inc – Jersey City's dedicated pickup service helps local organizations take a proactive approach to sustainability by providing a practical, dependable pathway for responsible battery recycling.

About EACR Inc

EACR Inc - Jersey City

111 Town Square Pl #1201, Jersey City, NJ 07310

(201) 304-6751
