

# investorTV to Host Live Panel: 'Mining for Defense: Exploring Military Metals Projects and Opportunities' on January 29

*Industry experts will examine rising defense spending, supply chain risks, and the role of military metals in national security.*

SINGAPORE, SINGAPORE, January 27, 2026 /EINPresswire.com/ -- [investorTV](#), a digital platform powered by [Global One Media](#), that brings together industry experts, corporate leaders, and investment professionals for live panel discussions on trending market topics, is thrilled to announce its upcoming live panel, "Mining for Defense: Exploring Military Metals Projects and Strategic Opportunities." The event will take place on Thursday, January 29, 2026, at 11:00 AM ET (5:00 PM CET).

Russia's invasion of Ukraine has accelerated defense spending, particularly in Europe, but broader structural forces are also reshaping military procurement and supply chain priorities. This live panel will explore the factors driving higher defense spending across Western countries and how these shifts are reshaping demand for critical military metals, including tungsten and niobium. The discussion will focus on supply chain security, policy priorities, and the realities of bringing defense-aligned mining projects from development to qualified supply.

The panel will feature experts, including:

- Ali Haji, CEO & Director, American Tungsten Corp. (CSE: TUNG | OTCQB: TUNGF | FRA: RK90)
- Murray Nye, CEO, North American Niobium and Critical Minerals Corp. (CSE: NIOB | FSE: KS82.F | OTCQB: NIOMF)

InvestorTV to Host Live Panel: "Mining for Defense: Exploring Military Metals Projects and Opportunities" on January 29

- Craig Bradshaw, Managing Director, EQ Resources Ltd. (ASX: EQR)
- Christopher Ecclestone, Strategist & Principal, Hallgarten + Company

The discussion will be moderated by Jon Franklin, consulting geologist and Stocks to Watch host.

Key topics to be covered include:

- The structural and geopolitical drivers behind rising defense budgets across Western countries
- Critical bottlenecks in defense-related supply chains
- The strategic importance of tungsten and niobium in defense applications and why allied sourcing is a growing priority
- How defense-linked industrial policy influences which mining projects receive government support
- The role of substitution, recycling, and processing capacity in strengthening supply chain resilience
- What success and failure could look like for Western military metal supply chains over the next five years

Attendees will also have the opportunity to participate in a live Q&A session with the panelists.
