Unveils 2026 Strategic Blueprint to 'Uberize' Longevity in Dubai's \$34B Wellness Economy

Merging clinical rigor with luxury hospitality, the award-winning brand announces its roadmap to democratize biohacking and redefine the "Medical Butler" experience.

As the UAE solidifies its status as the global nexus for medical tourism and future-forward living, XLR8 WELLNESS ("[Accelerate Wellness](#)") has officially unveiled its 2026 Strategic Blueprint. Operating under the clinical governance of Bloom Healthcare LLC, the company is executing a decisive pivot from a premium home-healthcare provider to the region's first fully integrated "Longevity & Performance Ecosystem."

This strategic expansion leverages the unique "hybrid DNA" of its parent company, Clubtogether Hospitality Ltd (London/Dubai), to bridge the critical gap between sterile medical clinics and non-medical luxury spas.

From Service to Experience: The "Medical Butler" Model The 2026 Blueprint is anchored in the "Medical Butler" concept—hospital-grade clinical care delivered with the white-glove standards of a five-star hotel. This approach is backed by the prestigious pedigree of Clubtogether Hospitality, recently named Winner of the Business Transformation Award and a Finalist for Hospitality Industry Leader at the Business Awards UK 2024 Hospitality Awards.

We aren't just predicting the future of wellness; we are building it. Click the link to see how we are 'Uberizing' longevity in Dubai. Investors & Partners: DM to see the full blueprint.

"We are moving beyond the era of reactive 'sick care' into the era of proactive 'biological optimization'," says Mostafa Shaban, Founder of XLR8 WELLNESS. "Our 2026 Blueprint is about democratizing access to elite longevity protocols. Whether it is through our AI-enabled 'Create Your Own Test' bio-audits or our exclusive in-suite hotel partnerships, we are making high-performance health as accessible and seamless as ordering a luxury car service."

Proven Traction: The HEKAU Success Story Unlike early-stage startups relying on theory, XLR8 WELLNESS is fully operational, generating revenue, and processing bookings daily. The brand's capacity to cater to Ultra-High-Net-Worth Individuals (UHNWIs) was recently validated by the resounding success of its signature 'HEKAU (هكاو)' RETREAT.

Hosted in partnership with select modern luxury villas, the HEKAU retreat garnered exceptional feedback for its fusion of ancient wellness philosophies with modern medical diagnostics. This proof-of-concept has paved the way for expanded partnerships with luxury hotels, resorts, and private villa estates across the Emirates, turning guest suites into private, DHA-licensed wellness sanctuaries.

The 2026 Growth Pillars The Strategic Blueprint outlines three key verticals for market dominance:

The "Uberization" of Biohacking: Democratizing longevity through a tech-enabled platform where users can book NAD+ therapy, genetic screening, and performance diagnostics on-demand.

Hospitality Integration: Expanding the B2B "Medical Butler" network to become the exclusive wellness operating system for Dubai's top-tier hospitality brands.

Corporate Performance Engineering: Delivering data-driven health audits to the C-Suites of DIFC and DMCC, focusing on executive productivity and burnout prevention.

Operational Update & Investor Call XLR8 WELLNESS is not a concept; it is a live, fast-growing entity with a dedicated clinical team and active client base. As the UAE wellness economy surges to a projected \$34.1 billion, the company offers a de-risked, high-growth opportunity for strategic partners.

"We are not just predicting the future of wellness; we are building it daily with every booking," adds Shaban. "We invite forward-thinking investors to join us as we scale this proven model across the GCC."

Availability Services, including the "Create Your Own Test" feature and home-based longevity protocols, are available for booking now at www.xlr8well.com.

Investor Registration Strategic investors and partners interested in the 2026 roadmap can register their interest and view the full prospectus at: □ www.xlr8well.com/investors

About XLR8 WELLNESS XLR8 WELLNESS is a Dubai-based longevity and performance health provider operating under the licensure of Bloom Healthcare LLC. A subsidiary of Clubtogether Hospitality Ltd, the brand specializes in bringing hospital-grade diagnostics, IV therapy, and biohacking protocols directly to homes, offices, and luxury hotels. Bloom Healthcare is also an IBCCES Certified Autism Center™ (CAC), reflecting the company's deep commitment to specialized, compassionate care.
