

Glazing Contractor DGB Glass Selects Raynova LED Mirror for Texas Project

CHINO, CA, UNITED STATES, January 29, 2026 /EINPresswire.com/ -- [Raynova LED Mirror](#), a provider of customizable LED mirror and medicine cabinet solutions, announced that it has been selected by DGB Glass, Inc. to supply custom LED mirrors for a commercial project in Texas.

DGB Glass, which has operated in the glazing industry for nearly four decades, provides glass and glazing services for public infrastructure, educational facilities, and large-scale commercial properties. According to the companies, Raynova was chosen based on its ability to deliver customized mirror solutions that meet project-specific design and technical requirements.

The project will include custom LED mirror installations developed to align with the architectural and functional needs of the site. The companies stated that the scope includes design coordination, production, and delivery of mirrors manufactured to specification.

Why DGB Glass Inc., a leader in the glass and glazing industry chose Raynova?

According to Raynova, DGB Glass identified several operational factors during the selection process:

1. Specialized Focus: Raynova operates primarily in the LED mirror segment and develops products for custom commercial and residential applications.
2. Custom Manufacturing: Each mirror is produced according to project specifications, including size and lighting configuration.
3. Design Coordination: Raynova's engineering team works with designers and contractors to address installation and design requirements.

John, Raynova's branding partner from Bwanaz, stated, "Raynova provides custom mirror solutions that are designed around project requirements. Our role is to support designers and

builders by delivering products that align with their technical and aesthetic specifications.”

Project Implementation Overview:

Feature: Product Category

Technical Specification: Custom LED bathroom mirrors

Verification & Compliance Reference: Electrical components designed to meet UL / ETL standards*

Feature: Customization Capability

Technical Specification: Made to order based on project specifications

Verification & Compliance Reference: Manufactured according to documented production requirements

Feature: Optical Performance

Technical Specification: Color rendering index (CRI) 90+

Verification & Compliance Reference: Internal quality control testing

Feature: Safety & Durability

Technical Specification: IP44 water resistance; anti-shatter safety film available (higher ratings available by request)

Verification & Compliance Reference: Supplier compliance records on file

Feature: Stock Item Logistics

Technical Specification: In-stock items typically ship within 24 hours from CA, GA, or PA warehouses

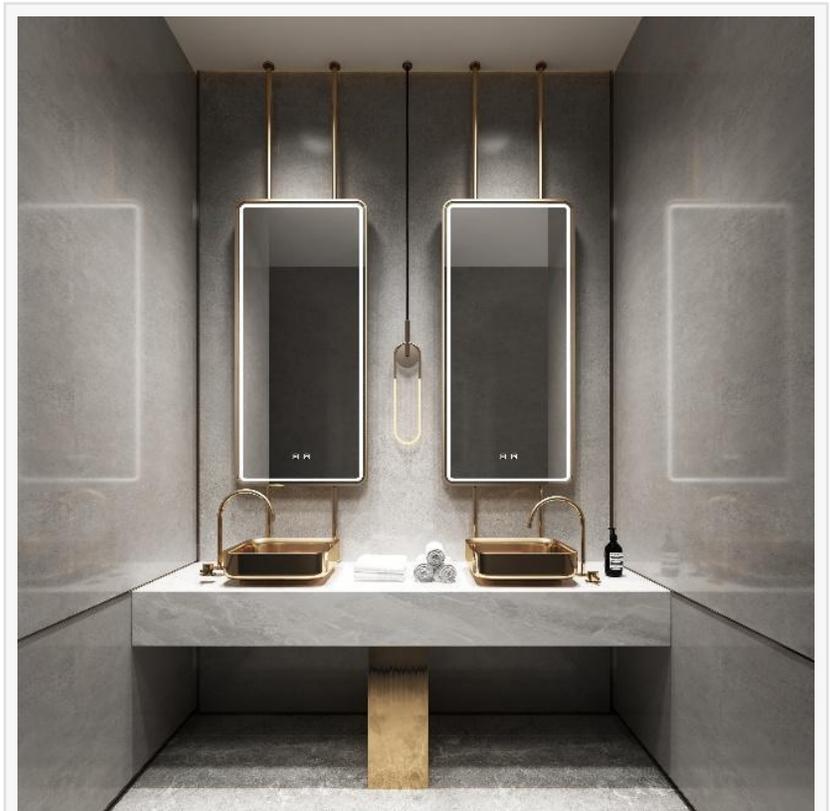

Verification & Compliance Reference: Inventory tracked through internal management system

Feature: Bespoke Lead Time

Technical Specification: Estimated 8–10 weeks from design approval to delivery

Verification & Compliance Reference: Production and order status monitored internally

Feature: U.S. Infrastructure

- Technical Specification: Chino, CA (Headquarters); Atlanta, GA; Philadelphia, PA
- Verification & Compliance Reference: Multi-location warehousing and distribution network

Logistics and Operations

Raynova is headquartered in Chino, California, with warehouse facilities in Atlanta, Georgia, and Philadelphia, Pennsylvania, supporting U.S. distribution.

Project Support

Raynova states that it provides post-installation support and technical assistance for commercial projects as part of its standard service model.

Chris, Raynova's Product Chief Engineer, commented, "Our team focuses on product design, manufacturing, and technical reliability. We aim to support long-term use through engineering and service support."
