ASAKUSA, TAITO-KU, TOKYO, JAPAN, February 6, 2026 /EINPresswire.com/ -- Prime 1 Studio has opened pre-orders for the Real Elite Masterline Lucy MacLean statue, based on the drama series "Fallout."

Set in the world of "Fallout," the statue presents Lucy MacLean as she ventures into the Wasteland in search of her father. The piece is produced in 1/4 scale, capturing her stance, outfit, and equipment as seen in the series.

The portrait is modeled to reflect the likeness of Ella Purnell, with detailed sculpting and paint application. The jumpsuit features weathering effects, and the Pip-Boy includes an LED light-up function.

The statue comes with three interchangeable right hands: one holding a 10mm Pistol, one holding a Ripper, and one holding a cloth bundle. The specially designed base incorporates elements from the series, including a damaged Nuka-Cola vending machine, Vault Boy imagery, a Radroach, and the Vault door motif,
