

ERP for Seed solution at Pacific Seed Association Convention by Unify Dots

Microsoft Dynamics 365 partner Unify Dots showcases AI-powered Agriculture ERP for seed and crop businesses at PSA's 100th Annual Convention.

SEATTLE, WA, UNITED STATES, February 6, 2026 /EINPresswire.com/ -- Unify Dots, a global Microsoft Solutions Partner headquartered in Seattle, will be an exhibitor at the Pacific Seed Association (PSA) 100th Annual Convention, taking place at the Waikiki Beach Marriott Resort & Spa from February 8–10, 2026.

Microsoft Solutions Partner Unify Dots will be exhibiting its Agriculture ERP solution, powered by Microsoft Dynamics 365 Supply Chain and Finance at the PSA 100th Annual Convention

This milestone gathering — themed “A Century of Seeds, Advancing Tomorrow” — will convene agriculture professionals, including growers, seed producers, researchers, technology vendors, and regulators, in celebration of PSA's century of industry leadership.

Our Microsoft Dynamics 365 Agriculture ERP unifies grower contracts, lot traceability, yield, quality, and costing for the seed industry—powered by AI Copilot to scale and stay compliant.”

Sandeep Walia, CEO of Unify Dots

Unify Dots will showcase its [Agriculture ERP](#) solution, powered by [Microsoft Dynamics 365 Supply Chain and Finance](#), designed to modernize seed and crop businesses across the agricultural value chain. The ERP for seed solution automates approvals, provides lot traceability, and supports data-driven decisions through embedded analytics, and AI insights. Highlights include:

- Seed Traceability & Lot Management – Track seed lots from production to distribution for full quality and compliance visibility.
- Grower Contracts – Manage agreements, terms, and performance across grower networks.
- Seed Production – Plan, monitor, and optimize seed

production cycles and field activities.

- Germination, Purity & Quality Testing – Record and manage lab test results to ensure seed

quality standards.

- Production Planning and Forecasting – Predict demand, plan supply, and align production with market needs.
- Sales & Distribution Management – Oversee sales orders, pricing, customer fulfillment, and logistics.
- Inventory & Warehouse Management – Track stock levels, storage conditions, and movements across locations.
- Fleet Management – Manage vehicles, equipment usage, scheduling, and maintenance.
- Financials – Handle accounting, costing, billing, budgeting, and financial reporting.
- Business Intelligence & Analytics – Gain insights through dashboards, reporting, and data-driven decision tools.

Convention Highlights:

- Educational & Networking Events: Industry sessions, general business meetings, and social gatherings attended by seed sector stakeholders from North America and beyond
- Interactive Engagements: UnifyDots will host live AI-powered ERP for Seed industry, showcase use cases, and discuss specific agricultural challenges with attendees and help showcase ways of empowering Agriculture growers and seed manufactures with technology
