interfaith response to food insecurity that focuses efforts on Nourishing Our Community One Neighbor at a Time, is proud to announce its selection as a partner in Endeavor Health's 2026 Community Investment Fund (CIF).

This year, Faith Feeds Food Pantry is the recipient of a CIF Capacity Builder Award in the amount of \$100,000 to transport more fresh, healthy perishable food for its mobile pantry. This grant means that a new refrigerated box truck will allow the mobile pantry to distribute even

more perishables into apartment complexes — bringing healthy food to our community’s most vulnerable residents.

“As a barely two-year-old nonprofit, we are beyond grateful to Endeavor Health’s commitment to giving back within the communities it serves,” said Adrienne Bolbot, Director of Faith Feeds Food Pantry. “Our history dates back more than 15 years, but we’re still very new as a standalone organization. Support like this means we serve even more neighbors in need.”

Endeavor Health selected Faith Feeds Food Pantry as one of nine new Capacity Builder recipients and 42 current partners across Chicagoland to collaborate on community health needs related to behavioral health, food and housing insecurity, access to care and careers in healthcare.

“Endeavor Health is here every day to support the health and well-being of our patients and their families,” said Kristen Murtos, Chief Innovation and Transformation Officer of Endeavor Health. “Through our Community Investment Fund, we’re collaborating with local organizations that people know and trust — helping them remove barriers to care, meet immediate needs and create long-term solutions that help individuals and families thrive.”

Removing the transportation barrier for Faith Feeds Food Pantry's clients means bringing food to where they live, strengthening communities by ensuring those most at-risk for hunger have access to healthy, fresh food. This grant enables the purchase of a truck that will increase the organization's mobile pantry impact and open additional avenues for rescue food.
