

# Data Facts Proves Dedication to Compliance, Passes SOC 2 Type 2 Exam

*Data Facts successfully completes SOC 2 Type 2 examination, reinforcing its commitment to data security and compliance over its 37-year history.*

MEMPHIS, TN, UNITED STATES, February 6, 2026 /EINPresswire.com/ -- Data Facts announces another successful completion of the System and Organizational Controls (SOC) 2 Type 2 examination. Successfully passing this examination demonstrates how Data Facts designs and maintains its controls to protect sensitive information. This continued achievement underscores Data Facts' long-standing focus on compliance and data protection throughout its 37-year history.

Developed by the American Institute of Certified Public Accountants (AICPA), the SOC 2 Type 2 examination is a type of cybersecurity audit that provides regular, independent attestation of the controls that a company has implemented to mitigate information-related risk.

Since its founding in 1989, Data Facts has consistently emphasized rigorous data security practices for the organizations that depend on its background screening solutions.

"We firmly believe that achieving SOC 2 compliance not only strengthens our competitive position but also highlights our unwavering commitment to protecting all personally identifiable information," says Johnna Leeds, SVP of Compliance at Data Facts. "Data security is deeply woven into our operational culture, supporting the needs of both our clients and our vendors. Through consistent, rigorous practices, we safeguard every piece of information entrusted to us. The assurance provided by the SOC 2 report further reinforces our dedication to exceptional service,

We firmly believe that achieving SOC 2 compliance not only strengthens our competitive position but also highlights our unwavering commitment to protecting all personally identifiable information.”
