

Venom and Valor Leadership Series Gains National Recognition as Platform for Resilience and Crisis Leadership

NEW YORK, NY, UNITED STATES, February 6, 2026 /EINPresswire.com/ -- The [Venom and Valor Leadership Series](#), built around the acclaimed memoir *Venom and Valor: A White House Physician Assistant's Battle for Survival in the Amazon* by [Dr. James J. Jones, PhD, PA-C](#), has emerged as a nationally recognized platform for leadership development, resilience education, and professional growth rooted in real-world experience.

Dr. James J. Jones | Venom and Valor Leadership Series Gains National Recognition as Platform for Resilience and Crisis Leadership

The brand's foundation is the award-winning memoir that recounts Dr. Jones's near-fatal snakebite in the Amazon rainforest and the profound leadership lessons drawn from that crisis. The book explores resilience, decision-making under pressure, faith, purpose, and adaptive leadership in extreme circumstances. Available in paperback, audiobook, and digital formats, the memoir has been recognized as a significant contribution to modern leadership discourse.

Recently, *Venom and Valor* was honored as the Best Leadership and Resilience Book in America of 2025, reinforcing its impact across professional and leadership communities. Dr. Jones was also named Physician Associate of the Year 2025, underscoring his influence in healthcare leadership and public service. These recognitions reflect the growing demand for authentic, experience-based leadership resources that address real challenges faced by professionals in high-stakes fields.

According to company representatives, the *Venom and Valor Leadership Series* is designed to serve healthcare professionals, military personnel, emergency responders, business leaders, and individuals in values-driven fields who operate under pressure and seek practical guidance rooted in lived experience rather than theoretical frameworks.

Beyond publishing, the brand functions as a comprehensive platform for mentorship,

professional development, and leadership education. It addresses critical issues such as preparation, moral courage, and clarity of purpose in both personal and organizational contexts. The narrative also raises awareness about neglected global health challenges, including snakebite envenomation, and emphasizes the importance of systemic and personal preparedness.

Representatives from the Venom and Valor Leadership Series note that future initiatives include expanding the platform to incorporate additional leadership resources, curricula, academic contributions, and structured learning programs. The vision is to create a durable leadership ecosystem that continues to educate and inspire professionals across multiple disciplines.

Dr. Jones brings a unique perspective shaped by decades of service as a senior military Physician Associate, healthcare executive, and academic faculty member. His leadership experience spans operational medicine, public health command, executive protection, and healthcare education, offering rare credibility across military, healthcare, and civilian leadership domains.
