

Silver Miller Addresses Investor Losses Linked to Inspired Healthcare Capital Bankruptcy

CORAL SPRINGS, FL, UNITED STATES, February 6, 2026 /EINPresswire.com/ -- [Silver Miller](#), a national securities and financial fraud law firm, is monitoring developments related to investor losses following the Chapter 11 bankruptcy filing of Inspired Healthcare Capital (IHC), a senior living-focused private investment sponsor.

Inspired Healthcare Capital and numerous affiliated entities filed voluntary Chapter 11 petitions on February 2, 2026, in the U.S. Bankruptcy Court for the Northern District of Texas. According to court filings, the debtors reported estimated liabilities ranging between \$1 billion and \$10 billion. The filings follow a period of operational disruption and halted investor distributions affecting multiple IHC-sponsored investment vehicles.

Silver Miller's focus is on publicly available information related to investments associated with IHC private placements, including Regulation D offerings and Delaware Statutory Trusts (DSTs), which were marketed to investors seeking income-oriented alternatives. The firm is examining whether disclosures, risk representations, and suitability considerations were appropriately addressed in connection with the sale of these investments.

Background on the IHC Bankruptcy

Public reports and court filings indicate that IHC experienced increasing financial and operational strain in the months preceding the bankruptcy. Reported developments include:

- A review by the U.S. Securities and Exchange Commission related to IHC investment offerings;
- Suspension of investor distributions and pauses on new offerings;
- A July 2025 announcement that IHC would wind down its internal operating platform, Volante Senior Living, and transition management responsibilities to third-party operators; and
- Litigation filed in 2025 alleging misstatements regarding IHC's financial condition in connection with a loan transaction.

The Chapter 11 proceedings may impact investors across multiple IHC-related funds and structures, particularly those dependent on ongoing income distributions or liquidity events.
