Tax Resolutions now provides nationwide tax debt relief and tax filing services for individuals and businesses dealing with back taxes, IRS penalties and interest, audits, enforcement actions like wage garnishments and bank levies, and Foreign Bank Account Report ([FBAR](#)) filings.

IRS and FBAR Compliance Support

In addition to domestic tax resolution services, Tax Resolutions also assists with international tax compliance, including FBAR filings (Foreign Bank Account Report, FinCEN Form 114). U.S. taxpayers with foreign bank accounts, overseas investments, or foreign income may be required to file an FBAR. Failing to file can lead to large penalties and interest, and is considered a crime in most situations.

The firm files taxpayers' past-due FBARs, reduces penalties, advises on voluntary disclosure programs, ensures compliance with tax laws, and resolves past noncompliance issues while minimizing the impact.

Tax Resolutions notes that many taxpayers are unaware of FBAR requirements until they receive collection letters demanding payment of penalties. Getting help early can often prevent a taxpayer's bank accounts from being frozen by the IRS or wages from being garnished by negotiating with the IRS.
