Giga-Mint today announced the release of Snack Squad, a character-driven digital art series by emerging digital artist Fapohunda Abraham Busayo.

The collection marks the first release in Giga-Mint's Creator Spotlight initiative, which highlights independent artists and provides their work with a permanent, personally owned digital home.

Snack Squad is inspired by snack personalities and everyday moods — the familiar, relatable moments that reflect how people feel throughout the day. Each character in the series is designed with a strong sense of personality and expression, blending playful visual style with emotional storytelling.

“

Snack Squad is about capturing mood and personality in a simple, human way. It's inspired by everyday moments and the small habits that reflect how we feel.”

“Snack Squad is about capturing mood and character in a simple, human way,” said Busayo. “It's fun on the surface, but it's really about expression — how small moments and everyday habits connect to how we feel.”

The series is delivered through Giga-Mint's simplified NFT experience, which removes many of the barriers

traditionally associated with digital collectibles. Purchases are made using familiar payment

methods, users are guided through supported wallet setup, and each badge is delivered directly to the buyer's personal wallet — ensuring true ownership, portability, and long-term preservation.

“Creator Spotlight is about putting artists first,” said Dave Borsh, Founder and CMO of Giga-Mint. “Snack Squad stood out because it’s approachable, expressive, and rooted in everyday life. That combination makes it a great example of how digital collectibles can feel personal rather than technical.”

The Snack Squad collection is available now in the Giga-Mint Badge Shop as a limited digital release.
