

AIM Offers Expert Seasonal Advice for Homeowners on Window Treatments

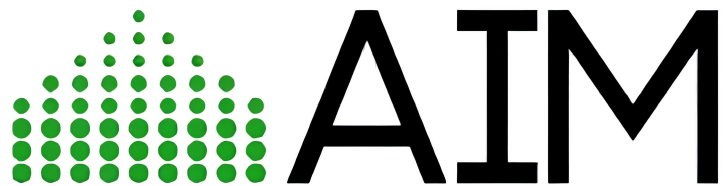

ENGLEWOOD, CO, UNITED STATES,
February 10, 2026 /EINPresswire.com/
-- As the seasons change and homeowners look for practical ways to improve comfort, privacy, and efficiency, AIM continues to help residents make informed decisions about window treatments all year long.

With a deep understanding of the challenges unique to Colorado's climate, AIM offers tailored recommendations for every season—whether it's keeping interiors cooler in the summer, boosting insulation in the winter, or simply updating the look of a space for spring and fall.

AIM's in-home consultations allow homeowners to explore the latest styles and technologies in window treatments—including energy-efficient cellular shades, motorized blinds, layered curtains, and UV-blocking drapery—right where they live. By bringing curated product samples and expert advice directly to each home, AIM makes it easy to see how different options will perform and look under real conditions.

The team at AIM helps homeowners choose window coverings that meet their goals for light control, privacy, and seasonal energy savings. Whether it's adding blackout shades for long summer days, selecting insulated curtains to reduce winter heat loss, or integrating motorized controls for easy year-round adjustments, AIM's guidance is grounded in local expertise and real-world results.

All recommendations are based on the home's architecture, window orientation, and the
