

GhosXWolf Debuts New Single 'Rain Rain' and Announces June 9 Release Date for Erotheum: Erothea Collection, Volume 1

MIAMI, FL, UNITED STATES, February 14, 2026 /EINPresswire.com/ -- [GhosXWolf](#) today released a new single titled “Rain Rain” on all major streaming platforms, marking the first official release in the rollout for the upcoming project Erotheum: Erothea Collection, Volume 1. The complete album and its companion art and poetry book are scheduled for release on June 9, 2026.

“Rain Rain” blends spoken-word poetry with melodic elements and is intended to introduce listeners to the thematic and emotional tone of the forthcoming collection. The track serves as the initial entry in the Erotheum series, which combines lyrical storytelling with layered musical composition.

GhosXWolf is an artist brand established prior to the recent rise of AI-created performers. The project began releasing work in 2019 and is designed around a narrative-driven creative identity that supports expansion into music, visual media, and related artistic expressions.

The Erotheum project incorporates a collaborative structure: a consistent musical foundation—specifically, shared beats and chorus elements—is paired with contributions from collaborating artists and creators worldwide on individual verses. This approach mirrors collaborative music cultures seen in international music communities.

In addition to the digital album, the June 9 release will include a coffee-table art and poetry book designed to complement the album’s narrative. The book aims to provide a written context for the artistic themes explored in the music.

The project is supported in coordination with United Sacraments Mobile Int, Inc. (USMI), a nonprofit organization that supports creative development and community infrastructure for artists. For more information, visit support.unisac.org.
