

Cerqle Will Unveil eSIM 'Operating System' at MWC Barcelona 2026 and Showcase SimiGo

BARCELONA, SPAIN, February 20, 2026 /EINPresswire.com/ -- At Mobile World Congress (MWC) 2026, Cerqle is set to demonstrate how its transforming eSIM from a simple traveler utility into a high-margin, scalable "Operating System" for OEMs, Telecoms, and Enterprise IoT.

"Head to Fira Gran Via, enter through Gate F, and find us in Hall 6, Stand 6F82 — near the GSMA Innovation City and major telco pavilions."

By presenting SimiGo as a live white-label blueprint, Cerqle will showcase a full-stack connectivity platform that eliminates the traditional hurdles of fragmented third-party integrations. The

Discover how CERQLE lets any business launch global eSIM in minutes — live demo at MWC Hall 6, Stand 6F82."

CERQLE Team

solution integrates Telmobil Inc.'s global eSIM orchestration with Cerqle's AI-driven communication tools, allowing businesses to launch, manage, and scale global mobile services within one unified organization.

[The SimiGo Blueprint](#): One Flow, One Organization
Most organizations spend years negotiating carrier contracts and stitching together separate APIs for billing, SMS, and support. Cerqle replaces this complexity with a

single "Connectivity OS":

The Kernel (Orchestration): Powered by Telmobil Inc., providing instant access to 190+ countries without individual carrier negotiations.

[The OS Services](#) (CPaaS): Cerqle powers customer engagement through its "One Flow" omnichannel, unifying WhatsApp, Telegram, SMS, Email, Instagram, Facebook Messenger, Snapchat, and AI-driven support agents into a single intelligent inbox.

The Use Case Experience: SimiGo acts as the proven white-label example, demonstrating a seamless flow from first boot to recurring data top-ups.

“The future of telecom is no longer about selling a SIM card; it’s about providing a programmable utility,” Founder of Cerqle. “With the Cerqle platform, we’ve built the factory so our partners can focus on the product. SimiGo is the proof that any brand can become a global telecom provider in days, not months.”

MWC On-Site Exclusive: Double Your Wallet

To celebrate the "One Flow" launch, Cerqle is offering an exclusive on-site incentive. Visitors to Stand 6F82 (Hall 6) who download the SimiGo app and top up their account will receive an instant 100% wallet bonus, doubling their global data balance.
