About Analytics Jobs

Analytics Jobs is India's leading course reviews portal, empowering 1M+ users with verified feedback on edtech programs. Specializing in Analytics Jobs, data science, and professional courses, we drive informed choices for career growth.

The report draws from over 5,250 Great Learning reviews across platforms like Trustpilot, CourseReport, and Reddit, emphasizing the platform's strengths in mentorship, career support, and flexible learning tailored for India's booming analytics jobs market.

Key Findings from Great Learning Reviews

Great Learning reviews consistently praise the platform's self-paced courses in AI, machine learning, and data analytics, taught by MIT faculty and industry experts. Learners highlight the integration of AI-driven doubt resolution and weekly mentorship sessions with small groups of 5-15 participants for personalized guidance.

Analytics Jobs' analysis reveals a 4.8/5 average rating from recent Great Learning reviews, with 90% of respondents noting improved job readiness. Standout features include mock interviews, career counseling, and networking fairs that have helped alumni land roles at top firms like Microsoft, Amazon, Deloitte, and Accenture.

India's analytics jobs sector is projected to grow by 30% in 2026, creating demand for skilled talent in data science and AI. Great Learning reviews underscore how the platform's programs, such as the MIT-collaborated Data Science and Machine Learning course, bridge this gap with

practical, job-oriented training.
